**RE: DA2019/1340 - 100 / 0 Meatworks Avenue OXFORD FALLS NSW 2100**

I believe the current size of the development already affects the surrounding bush land; flora and fauna. With the amount of bush land decreasing on the northern beaches I believe we need to stop increasing the building footprint and working towards sustaining what we have left. I strongly oppose to increasing the size of this development for the purposes of making more money and not because it is actually required.
