Dear Anne-Marie,

We live across the road from 113 Orchard Street. The owners have been speaking to us for a number of years about their plans, and we are very much in favour of having horses across the road.

We understand following the birth of their daughter, now aged 4, they decided that they needed to build a house that was appropriately built for bushfire zoning, and to get a new septic system installed, given the insurmountable challenges of getting a sewer system to their property.

The arena, paddocks, stables and parking all seem quite appropriate to us, and we know that the owners will do their best to make sure the construction is as painless as possible to neighbours.

We would like to lodge our support for their DA plans, and would like the council to note our support.

Kind regards

Emma & Simon Couch
