

# NOTICE OF DETERMINATION OF DEVELOPMENT APPLICATION

**Development Application No:** DA2008/0441

### **DEVELOPMENT APPLICATION DETAILS**

Applicant Name:	Jann Elizabeth Robinson
Applicant Address:	210 Headland Road DEE WHY NSW 2099
Land to be developed (Address):	Lot 4 in DP 601758, Lot 4/ Bennett Street CURL CURL NSW 2096
Proposed Development:	Demolition of existing 4 tennis courts & associated sheds
DETERMINATION	
Made on (Date):	13 AUGUST 2008
Consent to operate from (Date):	13 AUGUST 2008
L	
Consent to lapse on (Date):	13 AUGUST 2011

### **Details of Conditions**

The conditions, which have been applied to the consent, aim to ensure that the Environmental Impacts of Development are minimised and the Health and Safety of the community is maintained in accordance with the relevant standards and the Building Code of Australia.

### NOTE:

If the works are to be certified by a Private Certifying Authority, then it is the certifier's responsibility to ensure all outstanding fees and bonds have been paid to Council prior to the issue of the Construction Certificate or as otherwise specified by Consent conditions.

Pursuant to Section 95(2) of the Environmental Planning and Assessment Act 1979, Council has varied the provisions of Section 95(1) and advise that the consent will lapse 3 years from the date upon which the consent operates.

Section 95A of the Environmental Planning and Assessment Act 1979, allows for an extension of 1 year to the period in which the consent will lapse, except for complying development. Such an application must be made in accordance with Clause 114 of the Environmental Planning and Assessment Regulation 2000.

# **GENERAL CONDITIONS**

# CONDITIONS THAT IDENTIFY APPROVED PLANS

# 1. Approved Plans And Supporting Documentation

The development is to be carried out in compliance with the following plans and documentation listed below and endorsed with Council's stamp, except where amended by other conditions of consent:

Drawing Number	Revision	Titled	Prepared By	Dated
14096 SK01	-	Site Plan / Analysis	Kent Gilbert & Associates	March 2008

No construction works (including excavation) shall be undertaken prior to the release of the Construction Certificate.

Note: Further information on Construction Certificates can be obtained by contacting Council's Call Centre on 9942 2111, Council's website or at the Planning and Assessment Counter.

**Reason:** To ensure the work is carried out in accordance with the determination of Council and approved plans. (DACGBapasd)

### 2. Demolition of Extra Fabric

Demolition of the existing tennis courts and associated structures shall be limited to that shown on the approved plans (by way of notation). No approval is given or implied for removal and/or rebuilding of any portion of the existing buildings which are shown to be retained.

**Reason:** To ensure compliance with the approved development. (DACGBdef)

# CONDITIONS THAT MUST BE ADDRESSED PRIOR TO ANY COMMENCEMENT

### 3. Construction Work within Public Open Space

The written consent of Council must be obtained to enter or undertake any work within adjoining public lands prior to the commencement of works.

**Reason:** Protection of existing public infrastructure. (DACEDcwpos)

## 4. Public Liability Insurance - Works on Public Land

Any person or contractor undertaking works on public land must take out Public Risk Insurance with a minimum cover of \$10 million in relation to the occupation of, and approved works within Council's road reserve or public land, as approved in this

consent. The Policy is to note, and provide protection for Warringah Council, as an interested party and a copy of the Policy must be submitted to Council prior to commencement of the works. The Policy must be valid for the entire period that the works are being undertaken on public land.

**Reason:** To ensure the community is protected from the cost of any claim for damages arising from works on public land. (DACEDpliwp)

### 5. Site Sign

- (1) A sign must be erected in a prominent position on any work site on which work involved in the demolition of a building is being carried out:
  - (a) stating that unauthorised entry to the work site is prohibited;
  - (b) showing the name of the principal contractor (or person in charge of the work site), and a telephone number at which that person may be contacted at any time for business purposes and outside working hours; and
  - (c) showing the name, address and telephone number of the Principal Certifying Authority for the work.
- (2) Any such sign must be maintained while demolition work is being carried out, but must be removed when the work has been completed.
- (3) This condition does not apply to building works being carried out inside an existing building.

Reason: Statutory requirement. (DACGDss)

# 6. Waste Collection Contract

Prior to the commencement of work, written evidence is to be submitted to the Certifying Authority that there is a contract with a licensed contractor for the removal of demolition waste.

Reason: To maintain the property in a safe and hygienic state. (DACHDwcc)

### 7. **Protection of Trees During Works**

All trees that are to be specifically nominated to be retained by notation or condition as a requirement of development consent shall be maintained and protected during demolition, excavation and construction on the site. Details of required protection methods shall be provided to the Certifying Authority by an appropriately qualified person prior to commencement of any works on the site.

**Reason**: To ensure compliance with the requirement to retain significant planting on the site. (DACLDptdw)

# CONDITIONS THAT MUST BE COMPLIED WITH DURING DEMOLITION AND BUILDING WORK

# 8. Applicant's Cost of Work on Council Property

The applicant shall bear the cost of all works associated with the development that occurs on Council's property.

**Reason:** To ensure the proper management of public land. (DACEEacwcp)

### 9. Installation and Maintenance of Sediment Control

Techniques used for erosion and sediment control on building sites are to be adequately maintained at all times and must be installed in accordance with Warringah Council Specifications for Erosion and Sediment Control. All techniques shall remain in proper operation until all development activities have been completed and the site fully stabilised.

**Reason:** To protect the environment from the effects of sedimentation and erosion from development sites. (DACEEimsc)

### **10. Prohibition on Use of Pavements**

No demolition, excavation or material of any nature shall be placed on Council's footpaths, roadways, parks or grass verges without prior Council Approval.

**Reason:** To ensure public safety and amenity on public land. (DACEEpup)

### 11. Demolition Works

All Demolition Work shall be carried out in a safe manner by trained personnel under the management of a licensed demolisher who is registered with the WorkCover Authority, in accordance with all relevant Acts, Regulations and Australian Standards. Note: The following Australian Standard applied at the time of determination

• Australian Standard AS2601.2001 - Demolition of Structures

Reason: To ensure a satisfactory standard of demolition works. (DACGEdw)

### 12. Health and Safety

The work undertaken must satisfy applicable occupational health and safety and construction safety regulations, including any WorkCover Authority requirements.

**Reason:** To ensure the health and safety of the community and workers on the site. **(DACGEhs)** 

# 13. Plans on Site

A copy of all stamped approved plans, specifications and documents (including the Construction Certificate if required for the work incorporating certification of conditions of approval) shall be kept on site at all times so as to be readily available for perusal by any officer of Council or the Certifying Authority.

**Reason:** To ensure that the form of the development undertaken is in accordance with the determination of Council, Public Information and to ensure ongoing compliance. (DACGEpos)

### 14. Protection of Public Places

- (1) If the work involved in the erection or demolition of a building:
  - (a) is likely to cause pedestrian or vehicular traffic in a public place to be obstructed or rendered inconvenient; or
  - (b) building involves the enclosure of a public place,

a hoarding and site fencing must be erected between the work site and the public place.

- (2) If necessary, an awning is to be erected, sufficient to prevent any substance from, or in connection with, the work falling into the public place.
- (3) The work site must be kept lit between sunset and sunrise if it is likely to be hazardous to persons in the public place.
- (4) Any such hoarding, fence or awning is to be removed when the work has been completed.
- (5) No access across public reserves or parks is permitted.

Note: Prior to the erection of any temporary fence or hoarding over property owned or managed by Council, written approval must be obtained.

**Reason:** To ensure public safety and the proper management of public land. (DACGEppp)

# 15. Removal of Extra Fabric

Should any portion of the existing building, trees, or curtilage of the site which is indicated on the approved plans to be retained be damaged for whatever reason, all the works in the area of the damaged portion are to cease and written notification given to Council. No work is to resume until the written approval of Council is obtained. Failure to comply with the provisions of this condition will result in the Council taking further action including legal proceedings if necessary.

**Reason:** To ensure compliance with the terms of this development consent. **(DACGEref)** 

# 16. Dust emission and air quality

Materials must not be burnt on site.

Vehicles entering and leaving the site with soil or fill material must be covered.

Dust suppression measures must be carried out to minimise wind-borne emissions in accordance with the Landcom's Managing Urban Stormwater: Soils and Construction (The 'Blue Book'). Odour suppression measures must be carried out so as to prevent nuisance occurring at neighbouring properties.

**Reason**: To ensure residential amenity is maintained in the immediate vicinity. (DACHEdeaq)

### 17. Noise and Vibration

Noise emissions and vibration must be minimised where possible and work is to be carried out in accordance with Department of Environment and Climate Change (formerly) Environment Protection Authority guidelines for noise emissions from demolition works and must also comply with the provisions of the Protection of the Environment Operations Act 1997. This Condition must be complied with during demolition work.

**Reason**: To ensure residential amenity is maintained in the immediate vicinity. (DACHEnv)

### 18. Removal of Friable Asbestos

Anyone who removes, repairs or disturbs friable asbestos material must hold a current friable asbestos removal licence.

Prior to the commencement of work a site-specific permit approving each friable asbestos project must be obtained from WorkCover.

**Reason**: To comply with WorkCover requirements. (DACHErfa)

### **19.** Removing, Handling and Disposing of Asbestos

Any works involving asbestos based products in relation to removal, handling and disposing of material must be undertaken in accordance with all relevant Acts, Regulations, Guides and Codes.

Note: The following standards applied at the time of determination:

- Code of Practice for the Safe Removal of Asbestos [NOHSC:2002 (1998)] and
- Guide to the Control of Asbestos Hazards in Buildings and Structures [NOHSC: 3002 (1998)]

**Reason**: To ensure the long term health of workers on site and occupants of the building is not put at risk unnecessarily. (DACHErhda)

### 20. Removal of Hazardous Material

Hazardous or intractable wastes arising from the demolition process shall be removed and disposed of in accordance with the requirements of WorkCover NSW and the Environment Protection Authority and the provisions of all relevant Acts, Regulations and Guidelines.

Note: The following standards applied at the time of determination:

• Environment Protection Authority's Environmental Guidelines: Assessment, Classification and Management of Liquid and Non-Liquid Wastes (1999).

**Reason**: To ensure that the land is suitable for the proposed development and that contaminating material required to be removed from the property is removed in accordance with the prescribed manner. (DACHErhm)

### 21. Removal of Lead

All work involving lead removal must not cause lead contamination of air or ground and must be carried out in accordance with the relevant Australian Standards. Particular attention must be given to the control of dust levels on the site. Note: The following standard applied at the time of determination:

 Australian Standard AS4361.2 - Guide to lead paint management - Residential and commercial buildings

**Reason**: To ensure the long term health of workers on site and occupants of the building is not put at risk unnecessarily. (DACHEri)

### 22. Sediment and Erosion Control Signage

A durable sign, which is available from Council, shall be erected during building works in a prominent location on site, warning of penalties should appropriate erosion and sedimentation control devices not be maintained.

**Reason**: To protect the environment from the effects of sedimentation and erosion from development sites. (DACHEsecs)

# 23. Site Stabilisation

Where demolition works have been completed and new construction works have not commenced within 4 weeks of the completion of the demolition works that area affected by the demolition works shall be fully re-turfed and the site must be maintained in a safe and clean state until such time as new construction works commence.

**Reason**: To retain topsoil and minimise dust pollution. (DACHEss)

# 24. No Removal of Trees on Public Property

No trees or native shrubs or understorey on public property (footpaths, roads, reserves, etc.), unless specifically approved in this consent, shall be removed or damaged during construction including for the erection of any fences, hoardings or other temporary works.

**Reason**: Protection of existing environmental infrastructure and community assets. (DACLEnrtpp)

# 25. Trees

(2) Tree roots of 50mm or greater in diameter encountered during excavation, shall only be cut following consultation with a qualified Arborist. Tree roots between 10mm and 50mm in diameter, severed during excavation, shall be cut cleanly by hand.

### Reason: Protection of trees.

- (5) The following guidelines are to be complied with at all times:
  - (a) The applicant shall ensure that at all times during the development period no activities, storage or disposal of materials shall take place beneath the canopy of any tree covered under Council's Tree Preservation Order unless specifically approved by Council.
  - (b) Trees marked for retention are not to be damaged or used to display signage, or as fence or cable supports for any reason.
  - (c) Siting of sheds, stockpiles and vehicle parking should be sited so that they are remote from trees.
  - (d) Site personnel are to be made aware of tree requirements and protective measures. Paving materials placed within the dripline of any tree should be of a porous material.

### Reason: Protection of trees.

- (6) During the construction period the applicant is responsible for ensuring all protected trees are maintained in a healthy and vigorous condition. This is to be done by ensuring that all identified tree protection measures are adhered to. In this regard all protected plants on this site shall not exhibit:
  - (a) A general decline in health and vigour.
  - (b) Damaged, crushed or dying roots due to poor pruning techniques.
  - (c) More than 10% loss or dieback of roots, branches and foliage.
  - (d) Mechanical damage or bruising of bark and timber of roots, trunk and branches.
  - (e) Yellowing of foliage or a thinning of the canopy untypical of its species.
  - (f) An increase in the amount of deadwood not associated with normal growth.
  - (g) An increase in kino or gum exudation.
  - (h) Inappropriate increases in epicormic growth that may indicate that the plants are in a stressed condition.
  - (i) Branch drop, torn branches and stripped bark not associated with

natural climatic conditions.

The presence of any of these symptoms or signs may be considered by Council as a breach of the Conditions of Development Approval.

### **Reason:** Protection of trees.

(7) All trees on neighbouring properties are to be protected from adverse impacts caused by the works. Any excavations or changes of level occurring within the canopy of trees on neighbouring properties shall only be undertaken following consultation by a suitably qualified Arborist.

Any mitigating measures and recommendations required by the Arborist are to be implemented.

The owner of the adjoining allotment of land is not liable for the cost of work carried out for the purpose of this clause.

Reason: Protection of trees. (DACLEt)

### Right to Review by the Council

You may request the Council to review the determination of the application under Section 82A of the Environmental Planning & Assessment Act 1979. Any request to review the application must be within 12 months after the date of determination shown on this notice.

**NOTE:** A fee will apply for any request to review the determination.

### **Right of Appeal**

If you are dissatisfied with this decision Section 97 of the Environmental Planning & Assessment Act 1979 may give you the right to appeal to the Land and Environment Court within 12 months after the date on which you receive this notice.
