Subject: DA2020/1597 - 67 Pacific Parade DEE WHY NSW 2099 - RE-Submission against Build

To whom it might concern,

I am aware that there have been so minor changes made to this submission but I am still very much against having a large boarding house being built in an already heavy populated area. The cramped living conditions of these rooms would be unhealthy on a long term scenario for people living there.

With the increased depression created by COVID this would be an irresponsible build, not thinking about people's health but rather lining the builders pockets!
