- Actual or potential threatened species, populations, ecological communities, or their habitats;
- Wildlife corridors;
- Vegetation query stipulating that a Flora and Fauna Assessment is required;

And as such, Council's Natural Environment Unit officers are required to consider the likely potential environmental impacts.

### Officer comments

Council's Biodiversity Referrals team have assessed the Development Application for compliance against the following applicable provisions:

- Warringah DCP cl. E2 Prescribed Vegetation
- Warringah DCP cl. E6 Retaining Unique Environmental Features

The proposed development is situated predominantly in the existing development footprint and as such does not require the removal of any prescribed native vegetation nor will it impact upon unique environmental features. A Landscape Plan has been provided which includes a suite of native species, and as such is supported.

No objections in relation to biodiversity, subject to conditions.

The proposal is therefore supported.

Note: Should you have any concerns with the referral comments above, please discuss these with the Responsible Officer.
