RE: DA2019/1426 - 77 Collingwood Street MANLY NSW 2095

I wish to object to the servery proposed in DA 2019/1426 for The Corner Cafe at 77 Colliingwood Street, Manly.

As a regular walker in this area, i feel The Corner Cafe is on a very congested Cameron Avenue corner with vehicles coming from three different directions, a pedestrian crossing and both bikes, dogs, people, delivery trucks and children accessing this area at any one time, but more so during the summer months.

The customers who frequent the The Corner Cafe currently block the pathway with dogs, prams, bikes etc, causing pedestrian traffic to find a way past. This is despite the efforts of the owners who have provided a sign at the window, asking people to leave the area clear.

I consider the congestion is a safety issue.

Could Council reconsider this DA in its current form and provide an option for the owners to redesign the access to their takeaway area which would alleviate the congestion currently being experienced to pedestrians.
