Subject: TRIMMED: Submission for DA2023/0617

Hello,

My partner and I would like to put forward a submission against DA2023/0617.

Angle St is already heavily consumed by vehicle and foot traffic due to the neighbouring apartments. Further, the park at the end of Angle St (directly outside the DA), is frequented by families with young children. The proposed DA will be using the driveway immediately adjoining the (already small) children's park and the vehicles will increase exponentially, from the 1 car that presently uses it, to potentially dozens. This additional traffic has not been considered and the risk to the young children playing in the park is a serious danger.

Please reject this application, and we request our submission remain anonymous.

Thanks,

[REDACTED]
