<b>Recommendation:</b>	Approval

<b>Estimated Cost of Works:</b>	\$ 10,000.00
---------------------------------	--------------

### PROPOSED DEVELOPMENT IN DETAIL

The applicant seeks development consent for the removal of the existing planter boxes on the balconies along Units 16 and 17 on the roof terrace level and the installation of new glass balustrades fixed on the inside face of the existing concrete wall. The proposal has been designed to comply with relevant Australian Standards and the Building Code of Australia.

### ASSESSMENT INTRODUCTION

The application has been assessed in accordance with the requirements of the Environmental Planning

and Assessment Act 1979 and the associated Regulations. In this regard:

- An assessment report and recommendation has been prepared (the subject of this report) taking into account all relevant provisions of the Environmental Planning and Assessment Act 1979, and the associated regulations;
- A site inspection was conducted and consideration has been given to the impacts of the development upon the subject site and adjoining, surrounding and nearby properties;
- Notification to adjoining and surrounding properties, advertisement (where required) and referral to relevant internal and external bodies in accordance with the Act, Regulations and relevant Development Control Plan;
- A review and consideration of all submissions made by the public and community interest groups in relation to the application;
- A review and consideration of all documentation provided with the application (up to the time of determination);
- A review and consideration of all referral comments provided by the relevant Council Officers, State Government Authorities/Agencies and Federal Government Authorities/Agencies on the proposal.

## SUMMARY OF ASSESSMENT ISSUES

Warringah Development Control Plan - C8 Demolition and Construction

Warringah Development Control Plan - C9 Waste Management

Warringah Development Control Plan - D8 Privacy

Warringah Development Control Plan - E10 Landslip Risk

## SITE DESCRIPTION

<b>Property Description:</b>	<p>Lot 17 SP 74448 , 17 / 35 - 43 Dalley Street QUEENSCLIFF NSW 2096</p> <p>Lot 16 SP 74448 , 16 / 35 - 43 Dalley Street QUEENSCLIFF NSW 2096</p>
<b>Detailed Site Description:</b>	<p>The subject site is legally identified as Lot CP SP 74448 and known as 35 - 43 Dalley Street Queenscliff. The subject site is located within the R3 Medium Density Residential zone as mapped within the Warringah Local Environment Plan 2011 (WLEP 2011).</p> <p>The site is irregular in shape with a total area of 1732sqm. The site is a corner allotment situated on the northern side of Dalley Street and the south-eastern side of Oliver Street.</p> <p>The site is elevated above Oliver Street by virtue of the road cutting and as such there is a rock face, which rises between 3.5m and 5.5m above the level of Oliver Street. Dalley Street rises steeply from the intersection and the combined site has a cross fall in the order of 6m across its full width which is 46m at the street frontage. It's boundary with Oliver Street tapers such that the site has a rear boundary dimension of 14.755m.</p> <p>The site does not contain any significant environmental</p>

features.

### Description of Surrounding Development

The surrounding built environment is generally characterised by residential flat buildings 3-4 storeys in height. There are also examples of detached dwelling houses 1-2 storeys in height within the locality.

Map:

### SITE HISTORY

The land has been used for residential purposes for an extended period of time.

A search of Council's records has revealed the following relevant history:

- Development Application No. **2002/228** for the demolition of the existing dwellings and construction of a Residential Flat Building at No. 35-37 and 41-43 Dalley Street, Queenscliff was approved by Council on the 21 August 2002.
- Modification of Consent No. **2002/228** for the demolition of existing dwellings and construction of a residential flat building, with the modifications being alteration to external finish, amalgamation of Units 26 & 27 to form a single unit, and alteration of size and configuration of rooftop terrace planters was approved by Council on the 5 August 2003.
- Development Application **DA2020/0827** for alterations and additions to a residential flat building approved by Council on 19 October 2020.

### Application History

The Assessment Officer undertook a site visit at the subject site and examined the site's surrounds on 15 March 2021.

### ENVIRONMENTAL PLANNING AND ASSESSMENT ACT, 1979 (EPAA)

The relevant matters for consideration under the Environmental Planning and Assessment Act, 1979, are:

Section 4.15 Matters for Consideration'	Comments
Section 4.15 (1) (a)(i) – Provisions of any environmental planning instrument	See discussion on “Environmental Planning Instruments” in this report.
Section 4.15 (1) (a)(ii) – Provisions of any draft environmental planning instrument	Draft State Environmental Planning Policy (Remediation of Land) seeks to replace the existing SEPP No. 55 (Remediation of Land). Public consultation on the draft policy was completed on 13 April 2018. The subject site has been used for residential purposes for an extended period of time. The proposed development retains the residential use of the site, and is not considered a contamination risk.
Section 4.15 (1) (a)(iii) – Provisions of any development control plan	Warringah Development Control Plan 2011 applies to this proposal.
Section 4.15 (1) (a)(iiia) – Provisions of any planning agreement	None applicable.
Section 4.15 (1) (a)(iv) – Provisions of the Environmental Planning and Assessment Regulation 2000 (EP&A Regulation 2000)	<p><u>Division 8A</u> of the EP&amp;A Regulation 2000 requires the consent authority to consider "Prescribed conditions" of development consent. These matters have been addressed via a condition of consent.</p> <p><u>Clause 50(1A)</u> of the EP&amp;A Regulation 2000 requires the submission of a design verification certificate from the building designer at lodgement of the development application. This clause is not relevant to this application.</p> <p><u>Clauses 54 and 109</u> of the EP&amp;A Regulation 2000 allow Council to request additional information. No additional information was requested in this case.</p> <p><u>Clause 92</u> of the EP&amp;A Regulation 2000 requires the consent authority to consider AS 2601 - 1991: The Demolition of Structures. This matter has been addressed via a condition of consent.</p> <p><u>Clauses 93 and/or 94</u> of the EP&amp;A Regulation 2000 requires the consent authority to consider the upgrading of a building (including fire safety upgrade of development). This clause is not relevant to this application.</p> <p><u>Clause 98</u> of the EP&amp;A Regulation 2000 requires the consent authority to consider insurance requirements under the Home Building Act 1989. This matter has been addressed via a condition of consent.</p> <p><u>Clause 98</u> of the EP&amp;A Regulation 2000 requires the consent authority to consider the provisions of the Building Code of</p>

Section 4.15 Matters for Consideration'	Comments
	<p>Australia (BCA). This matter has been addressed via a condition of consent.</p> <p><u>Clause 143A</u> of the EP&amp;A Regulation 2000 requires the submission of a design verification certificate from the building designer prior to the issue of a Construction Certificate. This clause is not relevant to this application.</p>
Section 4.15 (1) (b) – the likely impacts of the development, including environmental impacts on the natural and built environment and social and economic impacts in the locality	<p>(i) <b>Environmental Impact</b> The environmental impacts of the proposed development on the natural and built environment are addressed under the Warringah Development Control Plan 2011 section in this report.</p> <p>(ii) <b>Social Impact</b> The proposed development will not have a detrimental social impact in the locality considering the character of the proposal.</p> <p>(iii) <b>Economic Impact</b> The proposed development will not have a detrimental economic impact on the locality considering the nature of the existing and proposed land use.</p>
Section 4.15 (1) (c) – the suitability of the site for the development	The site is considered suitable for the proposed development.
Section 4.15 (1) (d) – any submissions made in accordance with the EPA Act or EPA Regs	No submissions were received.
Section 4.15 (1) (e) – the public interest	No matters have arisen in this assessment that would justify the refusal of the application in the public interest.

## EXISTING USE RIGHTS

Existing Use Rights are not applicable to this application.

## BUSHFIRE PRONE LAND

The site is not classified as bush fire prone land.

## NOTIFICATION & SUBMISSIONS RECEIVED

The subject development application has been publicly exhibited from 02/03/2021 to 16/03/2021 in accordance with the Environmental Planning and Assessment Act 1979, Environmental Planning and Assessment Regulation 2000 and the Community Participation Plan.

As a result of the public exhibition of the application Council received no submissions.

## REFERRALS

Internal Referral Body	Comments
Building Assessment - Fire	The application has been investigated with respects to aspects

Internal Referral Body	Comments
and Disability upgrades	<p>relevant to the Building Certification and Fire Safety Department. There are no objections to approval of the development subject to inclusion of the attached conditions of approval and consideration of the notes below.</p> <p>Note: The proposed development may not comply with some requirements of the BCA and the Premises Standards. Issues such as this however may be determined at Construction Certificate stage.</p>

## ENVIRONMENTAL PLANNING INSTRUMENTS (EPIs)\*

All, Environmental Planning Instruments (SEPPs, REPs and LEPs), Development Controls Plans and Council Policies have been considered in the merit assessment of this application.

In this regard, whilst all provisions of each Environmental Planning Instruments (SEPPs, REPs and LEPs), Development Controls Plans and Council Policies have been considered in the assessment, many provisions contained within the document are not relevant or are enacting, definitions and operational provisions which the proposal is considered to be acceptable against.

As such, an assessment is provided against the controls relevant to the merit consideration of the application hereunder.

## State Environmental Planning Policies (SEPPs) and State Regional Environmental Plans (SREPs)

### SEPP 55 - Remediation of Land

Clause 7 (1) (a) of SEPP 55 requires the Consent Authority to consider whether land is contaminated. Council records indicate that the subject site has been used for residential purposes for a significant period of time with no prior land uses. In this regard it is considered that the site poses no risk of contamination and therefore, no further consideration is required under Clause 7 (1) (b) and (c) of SEPP 55 and the land is considered to be suitable for the residential land use.

### SEPP 65 - Design Quality of Residential Apartment Development

SEPP 65 – Design Quality of Residential Apartment Development states the following:

*(1) This Policy applies to development for the purpose of a residential flat building, shop top housing or mixed use development with a residential accommodation component if:*

*(a) the development consists of any of the following:*

- (i) the erection of a new building,*
- (ii) the substantial redevelopment or the substantial refurbishment of an existing building,*
- (iii) the conversion of an existing building, and*

*(b) the building concerned is at least 3 or more storeys (not including levels below ground level (existing) or levels that are less than 1.2 metres above ground level (existing) that provide for car parking) , and*

*(c) the building concerned contains at least 4 or more dwellings.*

Comment:

Whilst the existing residential flat building is more than 3 storeys in height and contains more than 4 dwellings, the proposed development comprises removal of the existing planter boxes and for the installation of glass balustrades to create a non-climbable barrier to ensure compliance with the Building Code of Australia. These works do not constitute a substantial redevelopment or substantial refurbishment of the existing residential flat building. Therefore, no further consideration of SEPP 65 is required for the purpose of this assessment.

### **SEPP (Coastal Management) 2018**

The site is identified within the 'Coastal Environment Area' pursuant to the SEPP (Coastal Management) 2018. Accordingly, the proposal is considered against Clauses 13 and 15 of this Policy as follows:

#### **13 Development on land within the coastal environment area**

- (1) *Development consent must not be granted to development on land that is within the coastal environment area unless the consent authority has considered whether the proposed development is likely to cause an adverse impact on the following:*

  - (a) the integrity and resilience of the biophysical, hydrological (surface and groundwater) and ecological environment,*
  - (b) coastal environmental values and natural coastal processes,*
  - (c) the water quality of the marine estate (within the meaning of the Marine Estate Management Act 2014), in particular, the cumulative impacts of the proposed development on any of the sensitive coastal lakes identified in Schedule 1,*
  - (d) marine vegetation, native vegetation and fauna and their habitats, undeveloped headlands and rock platforms,*
  - (e) existing public open space and safe access to and along the foreshore, beach, headland or rock platform for members of the public, including persons with a disability,*
  - (f) Aboriginal cultural heritage, practices and places,*
  - (g) the use of the surf zone.*
- (2) *Development consent must not be granted to development on land to which this clause applies unless the consent authority is satisfied that:*

  - (a) the development is designed, sited and will be managed to avoid an adverse impact referred to in subclause (1), or*
  - (b) if that impact cannot be reasonably avoided—the development is designed, sited and will be managed to minimise that impact, or*
  - (c) if that impact cannot be minimised—the development will be managed to mitigate that impact.*

Comment:

The works do not result in ground disturbance and are sufficiently separated from Manly Lagoon and Freshwater Beach. As such, the proposal will not have a detrimental impact on the coastal

environment. Moreover, noting the separation from the foreshore, the works will not preclude access to and along the foreshore. The site is not identified as being located within an area known for significant Aboriginal cultural heritage and therefore, the development will not have an adverse impact in this regard. Based on the above assessment, it is concluded that the proposal has been designed, sited and will be managed to avoid an adverse impact upon the matters referred to in Clause 13.

### **15 Development in coastal zone generally—development not to increase risk of coastal hazards**

*Development consent must not be granted to development on land within the coastal zone unless the consent authority is satisfied that the proposed development is not likely to cause increased risk of coastal hazards on that land or other land.*

#### Comment:

Given the minor nature of the works proposed and location of the site relative to Manly Lagoon and Freshwater Beach, it is unlikely that the proposed development will cause increased risk of coastal hazards within the locality.

#### Concluding Remarks

Having regard to the above assessment, it is concluded that the proposed development is consistent with the relevant matters prescribed within the SEPP (Coastal Management) 2018.

### **Warringah Local Environmental Plan 2011**

Is the development permissible?	Yes
After consideration of the merits of the proposal, is the development consistent with:	
aims of the LEP?	Yes
zone objectives of the LEP?	Yes

#### Principal Development Standards

There is no change to the previously approved maximum building height of the residential flat building as a result of the proposed works.

#### Compliance Assessment

Clause	Compliance with Requirements
2.7 Demolition requires consent	Yes
4.3 Height of buildings	Yes
6.4 Development on sloping land	Yes

### **Warringah Development Control Plan**

#### Built Form Controls

There is no change to the previously approved build form controls of the residential flat building as a result of the proposed works.

#### Compliance Assessment

Clause	Compliance with Requirements	Consistency Aims/Objectives
A.5 Objectives	Yes	Yes
C4 Stormwater	Yes	Yes
C8 Demolition and Construction	No	Yes
C9 Waste Management	No	Yes
D2 Private Open Space	Yes	Yes
D3 Noise	Yes	Yes
D6 Access to Sunlight	Yes	Yes
D7 Views	Yes	Yes
D8 Privacy	Yes	Yes
D9 Building Bulk	Yes	Yes
D10 Building Colours and Materials	Yes	Yes
D12 Glare and Reflection	Yes	Yes
D14 Site Facilities	Yes	Yes
D20 Safety and Security	Yes	Yes
D22 Conservation of Energy and Water	Yes	Yes
E1 Preservation of Trees or Bushland Vegetation	Yes	Yes
E6 Retaining unique environmental features	Yes	Yes
E10 Landslip Risk	No	Yes

### Detailed Assessment

#### **C8 Demolition and Construction**

The application was not accompanied by a Waste Management Plan. To ensure the proper disposal of builder's waste, a suitable condition has been included with this consent requiring the applicant to prepare a Waste Management Plan in accordance with Council's Waste Management Guidelines. The plan is to be submitted to the Certifying Authority prior to the issue of the Construction Certificate.

#### **C9 Waste Management**

The application was not accompanied by a Waste Management Plan. To ensure the proper disposal of builder's waste, a suitable condition has been included with this consent requiring the applicant to prepare a Waste Management Plan in accordance with Council's Waste Management Guidelines. The plan is to be submitted to the Certifying Authority prior to the issue of the Construction Certificate.

#### **D8 Privacy**

Clause D8 of the Warringah Development Control Plan 2011 requires the following:

- 1. Building layout should be designed to optimise privacy for occupants of the development and occupants of adjoining properties.*
- 2. Orientate living areas, habitable rooms and windows to private open space areas or to the street to limit overlooking.*
- 3. The effective location of doors, windows and balconies to avoid overlooking is preferred to the use of screening devices, high sills or obscured glass.*

4. *The windows of one dwelling are to be located so they do not provide direct or close views (ie from less than 9 metres away) into the windows of other dwellings.*

5. *Planter boxes, louvre screens, pergolas, balcony design and the like are to be used to screen a minimum of 50% of the principal private open space of a lower apartment from overlooking from an upper apartment.*

Comment:

The submitted plans indicate that the existing planter boxes are to be removed and replaced by glass balustrading along the north-west elevations for Units 16 and 17.

There are no significant concerns with regards to visual privacy resulting from the proposed development, particularly as the existing area for screening landscaping did not support landscaping that provided an appropriate area for screening or softening of the built form. It should be noted that the balconies along Units 16 and 17 are orientated towards Oliver Road and do not allow for downward overlooking into windows or private open space for units on the subject site and adjoining properties.

For these reasons, Council can be satisfied that the proposed development meets the requirements set out within this control.

### **E10 Landslip Risk**

The site is situated in Area B on Councils Landslip Risk Map and a preliminary geotechnical assessment of site conditions is normally required to accompany the application. However, in this instance, as the works are very minor and relate only to the removal of existing planter boxes and glass balustrading within an existing residential flat building, it is considered that such a preliminary assessment is not required.

When considered against the objectives of this control, it is noted as follows:

- *To ensure development is geotechnically stable.*

Comment:

The works do not necessitate ground disturbance and are not likely to exacerbate landslip hazards.

- *To ensure good engineering practice.*

Comment:

Conditions included with this consent will ensure the works comply with relevant BCA and Australian Standard provisions.

- *To ensure there is no adverse impact on existing subsurface flow conditions.*

Comment:

The works do not increase impervious areas on the site and do not require significant excavation. Therefore, the proposal will not have an adverse impact on existing subsurface flow conditions.

- *To ensure there is no adverse impact resulting from stormwater discharge.*

Comment:

The works will not increase impervious areas on the site and therefore, will not increase stormwater loading onto adjoining properties.

Concluding Remarks

Based on the above assessment, it is concluded that the proposal achieves the objectives of the control.

**THREATENED SPECIES, POPULATIONS OR ECOLOGICAL COMMUNITIES**

The proposal will not significantly affect threatened species, populations or ecological communities, or their habitats.

**CRIME PREVENTION THROUGH ENVIRONMENTAL DESIGN**

The proposal is consistent with the principles of Crime Prevention Through Environmental Design.

**POLICY CONTROLS**

**Northern Beaches Section 7.12 Contributions Plan 2019**

As the estimated cost of works is less than \$100,001.00 the policy is not applicable to the assessment of this application.

**CONCLUSION**

The site has been inspected and the application assessed having regard to all documentation submitted by the applicant and the provisions of:

- Environmental Planning and Assessment Act 1979;
- Environmental Planning and Assessment Regulation 2000;
- All relevant and draft Environmental Planning Instruments;
- Warringah Local Environment Plan;
- Warringah Development Control Plan; and
- Codes and Policies of Council.

This assessment has taken into consideration the submitted plans, Statement of Environmental Effects, all other documentation supporting the application and public submissions, and does not result in any unreasonable impacts on surrounding, adjoining, adjacent and nearby properties subject to the conditions contained within the recommendation.

In consideration of the proposal and the merit consideration of the development, the proposal is considered to be:

- Consistent with the objectives of the DCP
- Consistent with the zone objectives of the LEP

- Consistent with the aims of the LEP
- Consistent with the objectives of the relevant EPIs
- Consistent with the objects of the Environmental Planning and Assessment Act 1979

It is considered that the proposed development satisfies the appropriate controls and that all processes and assessments have been satisfactorily addressed.

## RECOMMENDATION

THAT Council as the consent authority grant Development Consent to DA2021/0109 for Alterations and additions to a Residential Flat Building on land at Lot 17 SP 74448, 17 / 35 - 43 Dalley Street, QUEENSCLIFF, Lot 16 SP 74448, 16 / 35 - 43 Dalley Street, QUEENSCLIFF, subject to the conditions printed below:

### DEVELOPMENT CONSENT OPERATIONAL CONDITIONS

#### 1. Approved Plans and Supporting Documentation

The development must be carried out in compliance (except as amended by any other condition of consent) with the following:

##### a) Approved Plans

Architectural Plans - Endorsed with Council's stamp		
Drawing No.	Dated	Prepared By
North-East, North and South Elevations	not dated	RF Architects
North-West and South Elevations	not dated	RF Architects
Floor Level 6 Plan	not dated	not specified

##### b) Any plans and / or documentation submitted to satisfy the Conditions of this consent.

In the event of any inconsistency between conditions of this consent and the drawings/documents referred to above, the conditions of this consent will prevail.

Reason: To ensure the work is carried out in accordance with the determination of Council and approved plans.

#### 2. Prescribed Conditions

- All building works must be carried out in accordance with the requirements of the Building Code of Australia (BCA).
- BASIX affected development must comply with the schedule of BASIX commitments specified within the submitted BASIX Certificate (demonstrated compliance upon plans/specifications is required prior to the issue of the Construction Certificate);
- A sign must be erected in a prominent position on any site on which building work, subdivision work or demolition work is being carried out:
  - showing the name, address and telephone number of the Principal Certifying Authority for the work, and
  - showing the name of the principal contractor (if any) for any building work and

a telephone number on which that person may be contacted outside working hours, and

- (iii) stating that unauthorised entry to the work site is prohibited.

Any such sign is to be maintained while the building work, subdivision work or demolition work is being carried out, but must be removed when the work has been completed.

- (d) Residential building work within the meaning of the Home Building Act 1989 must not be carried out unless the Principal Certifying Authority for the development to which the work relates (not being the Council) has given the Council written notice of the following information:

- (i) in the case of work for which a principal contractor is required to be appointed:
  - A. the name and licence number of the principal contractor, and
  - B. the name of the insurer by which the work is insured under Part 6 of that Act,
- (ii) in the case of work to be done by an owner-builder:
  - A. the name of the owner-builder, and
  - B. if the owner-builder is required to hold an owner-builder permit under that Act, the number of the owner-builder permit.

If arrangements for doing the residential building work are changed while the work is in progress so that the information notified under becomes out of date, further work must not be carried out unless the Principal Certifying Authority for the development to which the work relates (not being the Council) has given the Council written notice of the updated information.

- (e) Development that involves an excavation that extends below the level of the base of the footings of a building on adjoining land, the person having the benefit of the development consent must, at the person's own expense:
  - (i) protect and support the adjoining premises from possible damage from the excavation, and
  - (ii) where necessary, underpin the adjoining premises to prevent any such damage.
  - (iii) must, at least 7 days before excavating below the level of the base of the footings of a building on an adjoining allotment of land, give notice of intention to do so to the owner of the adjoining allotment of land and furnish particulars of the excavation to the owner of the building being erected or demolished.
  - (iv) the owner of the adjoining allotment of land is not liable for any part of the cost of work carried out for the purposes of this clause, whether carried out on the allotment of land being excavated or on the adjoining allotment of land.

In this clause, allotment of land includes a public road and any other public place.

Reason: Legislative requirement.

### 3. General Requirements

- (a) Unless authorised by Council:  
Building construction and delivery of material hours are restricted to:
  - 7.00 am to 5.00 pm inclusive Monday to Friday,
  - 8.00 am to 1.00 pm inclusive on Saturday,
  - No work on Sundays and Public Holidays.

Demolition and excavation works are restricted to:

- 8.00 am to 5.00 pm Monday to Friday only.

(Excavation work includes the use of any excavation machinery and the use of jackhammers, rock breakers, excavators, loaders and the like, regardless of whether the activities disturb or alter the natural state of the existing ground stratum or are breaking up/removing materials from the site).

- (b) Should any asbestos be uncovered on site, its demolition and removal must be carried out in accordance with WorkCover requirements and the relevant Australian Standards.
- (c) At all times after the submission the Notice of Commencement to Council, a copy of the Development Consent and Construction Certificate is to remain onsite at all times until the issue of a final Occupation Certificate. The consent shall be available for perusal of any Authorised Officer.
- (d) Where demolition works have been completed and new construction works have not commenced within 4 weeks of the completion of the demolition works that area affected by the demolition works shall be fully stabilised and the site must be maintained in a safe and clean state until such time as new construction works commence.
- (e) Onsite toilet facilities (being either connected to the sewer or an accredited sewer management facility) for workers are to be provided for construction sites at a rate of 1 per 20 persons.
- (f) Prior to the release of the Construction Certificate, payment of the Long Service Levy is required. This payment can be made at Council or to the Long Services Payments Corporation. Payment is not required where the value of the works is less than \$25,000. The Long Service Levy is calculated on 0.35% of the building and construction work. The levy rate and level in which it applies is subject to legislative change. The applicable fee at the time of payment of the Long Service Levy will apply.
- (g) The applicant shall bear the cost of all works associated with the development that occurs on Council's property.
- (h) No skip bins, building materials, demolition or excavation waste of any nature, and no hoist, plant or machinery (crane, concrete pump or lift) shall be placed on Council's footpaths, roadways, parks or grass verges without Council Approval.
- (i) Demolition materials and builders' wastes are to be removed to approved waste/recycling centres.
- (j) No trees or native shrubs or understorey vegetation on public property (footpaths, roads, reserves, etc.) or on the land to be developed shall be removed or damaged during construction unless specifically approved in this consent including for the erection of any fences, hoardings or other temporary works.
- (k) Prior to the commencement of any development onsite for:
  - i) Building/s that are to be erected
  - ii) Building/s that are situated in the immediate vicinity of a public place and is dangerous to persons or property on or in the public place
  - iii) Building/s that are to be demolished
  - iv) For any work/s that is to be carried out
  - v) For any work/s that is to be demolished

The person responsible for the development site is to erect or install on or around the

development area such temporary structures or appliances (wholly within the development site) as are necessary to protect persons or property and to prevent unauthorised access to the site in order for the land or premises to be maintained in a safe or healthy condition. Upon completion of the development, such temporary structures or appliances are to be removed within 7 days.

- (l) A "Road Opening Permit" must be obtained from Council, and all appropriate charges paid, prior to commencement of any work on Council property. The owner/applicant shall be responsible for all public utilities and services in the area of the work, shall notify all relevant Authorities, and bear all costs associated with any repairs and/or adjustments as those Authorities may deem necessary.
- (m) The works must comply with the relevant Ausgrid Network Standards and SafeWork NSW Codes of Practice.
- (n) Requirements for new swimming pools/spas or existing swimming pools/spas affected by building works.
  - (1) Child resistant fencing is to be provided to any swimming pool or lockable cover to any spa containing water and is to be consistent with the following;
 

Relevant legislative requirements and relevant Australian Standards (including but not limited) to:

    - (i) Swimming Pools Act 1992
    - (ii) Swimming Pools Amendment Act 2009
    - (iii) Swimming Pools Regulation 2018
    - (iv) Australian Standard AS1926 Swimming Pool Safety
    - (v) Australian Standard AS1926.1 Part 1: Safety barriers for swimming pools
    - (vi) Australian Standard AS1926.2 Part 2: Location of safety barriers for swimming pools.
  - (2) A 'KEEP WATCH' pool safety and aquatic based emergency sign, issued by Royal Life Saving is to be displayed in a prominent position within the pool/spa area.
  - (3) Filter backwash waters shall be conveyed to the Sydney Water sewerage system in sewered areas or managed on-site in unsewered areas in a manner that does not cause pollution, erosion or run off, is separate from the irrigation area for any wastewater system and is separate from any onsite stormwater management system.
  - (4) Swimming pools and spas must be registered with the Division of Local Government.

Reason: To ensure that works do not interfere with reasonable amenity expectations of residents and the community.

## FEES / CHARGES / CONTRIBUTIONS

### 4. Security Bond

A bond (determined from cost of works) of \$1,000 and an inspection fee in accordance with Council's Fees and Charges paid as security are required to ensure the rectification of any damage that may occur to the Council infrastructure contained within the road reserve adjoining the site as a result of construction or the transportation of materials and equipment to and from the development site.

An inspection fee in accordance with Council adopted fees and charges (at the time of payment) is payable for each kerb inspection as determined by Council (minimum (1) one inspection).

All bonds and fees shall be deposited with Council prior to Construction Certificate or demolition work commencing, and details demonstrating payment are to be submitted to the Certifying Authority prior to the issue of the Construction Certificate.

To process the inspection fee and bond payment a Bond Lodgement Form must be completed with the payments (a copy of the form is attached to this consent and alternatively a copy is located on Council's website at [www.northernbeaches.nsw.gov.au](http://www.northernbeaches.nsw.gov.au)).

Reason: To ensure adequate protection of Council's infrastructure.

## **CONDITIONS TO BE SATISFIED PRIOR TO THE ISSUE OF THE CONSTRUCTION CERTIFICATE**

### **5. Glass Balustrading**

The proposed glass balustrades are to comply with Clause D2.16 of the Building Code of Australia and in compliance with AS1170 and AS1288.

An interlocking top rail is to be provided to the glass balustrades in accordance with AS1288-2006.

Details demonstrating compliance are to be provided to the Certifying Authority, prior to the issue of the Construction Certificate.

Reason: To ensure provision is made for building occupant safety.

### **6. Compliance with Standards**

The development is required to be carried out in accordance with all relevant Australian Standards.

Details demonstrating compliance with the relevant Australian Standard are to be submitted to the Certifying Authority prior to the issue of the Construction Certificate.

Reason: To ensure the development is constructed in accordance with appropriate standards.

### **7. Waste Management Plan**

A Waste Management Plan must be prepared for this development. The Plan must be in accordance with the Development Control Plan.

Details demonstrating compliance must be provided to the Certifying Authority prior to the issue of the Construction Certificate.

Reason: To ensure that any demolition and construction waste, including excavated material, is reused, recycled or disposed of in an environmentally friendly manner.

## **CONDITIONS TO BE COMPLIED WITH DURING DEMOLITION AND BUILDING WORK**

### **8. Waste Management During Development**

The reuse, recycling or disposal of waste during works must be done generally in accordance

with the Waste Management Plan for this development.

Details demonstrating compliance must be submitted to the Principal Certifying Authority.

Reason: To ensure demolition and construction waste is recycled or reused and to limit landfill.

## CONDITIONS WHICH MUST BE COMPLIED WITH PRIOR TO THE ISSUE OF THE OCCUPATION CERTIFICATE

### 9. **Waste Management Confirmation**

Prior to the issue of a Final Occupation Certificate, evidence / documentation must be submitted to the Principal Certifying Authority that all waste material from the development site arising from demolition and/or construction works has been appropriately recycled, reused or disposed of generally in accordance with the approved Waste Management Plan.

Reason: To ensure demolition and construction waste is recycled or reused and to limit landfill.

In signing this report, I declare that I do not have a Conflict of Interest.

**Signed**

**Thomas Burns, Planner**
