RE: DA2023/0998 - 9999 The Esplanade FRESHWATER NSW 2096

I oppose the presented plan taking much away from the already over developed area where parking also is already a problem. There is absolutely no need to build another massive complex at Freshwater. Harbord Diggers is quite enough, dominating the landscape and bringing people in. I very much prefer the original heritage surf club to be maintained in good functioning condition.
