**RE: DA2023/1224 62 Myoora Road TERREY HILLS NSW 2084**

Having large vehicles entering and exiting from Myoora Road right by the school is too dangerous as well as congested. We already have proof of how congested that road is with the construction going on for the hospital. There will also be too many more cars along that stretch after the hospital is complete, traffic comes to a stand still at pick up time at the school as it is.
