**RE: DA2019/0200 - 130 Old Pittwater Road BROOKVALE NSW 2100**

The area is an oasis in an already over-developed area. Adding more concrete and buildings and industrial pollution would have a disastrous impact on the wildlife and destroy precious bushland. At a Permaculture Northern Beaches event last year, Mr Regan stated how passionate he and the Northern Beaches Council were about the environment. Destroying and polluting more bushland would have devastating environmental effects. I am totally opposed to any of the bushland being destroyed.
