RE: DA2023/0995 - 54 Brighton Street FRESHWATER NSW 2096

I support this application. It may impact 5 homes however will add value to the area and is much needed to the area. We need to consider Australia overall and the increased migration levels returning to Sydney after Covid both internally and overseas.

There is a lot of persons against this application. But how many are for the for the application who have not been encouraged also to voice their opinion?

A campaign has been placed asking people to vote against it, wonder what the result would be if the campaign has given both sides of an argument, not listed the exact property address then encourage to voice an opinion not voice an against opinion.
