

Parks, Reserves and Foreshores Referral Response

Application Number:	DA2021/1862
Date:	01/11/2021
To:	Anne-Marie Young
Land to be developed (Address):	Lot 15 DP 12979 , 102 Iluka Road PALM BEACH NSW 2108

Reasons for referral

This application seeks consent for any application on land or land being adjoining or adjacent to any parks, reserves, beaches, or foreshore
And as such, Council's Parks, Reserves and Foreshores officers are required to consider the likely impacts of the proposal.

Officer comments

The development application is for the demolition of an existing dwelling and the construction of a new dwelling with excavated basement level, garage and studio.

The site adjoins Snapperman Beach Reserve located downslope of the property from the rear boundary. Public access from Iluka Road to Snapperman Beach Reserve exists across the laneway adjoining the southern boundary of the property.

All works must ensure that surface sediment runoff and/or erosion is controlled, managed and contained within the site boundaries and prevented from entering across the boundary and into the foreshore zone.

No permanent structures nor built elements are permitted beyond the site boundaries.

The proposal is therefore supported.

Note: Should you have any concerns with the referral comments above, please discuss these with the Responsible Officer.

Parks, Reserves and Foreshores Conditions:

CONDITIONS THAT MUST BE ADDRESSED PRIOR TO ANY COMMENCEMENT

Works on Land Owned or Managed By Council

No works are to be carried out on land owned or managed by Council.

Note: Separate approval from Council is required for access driveways, paths, stairs, connections to underground utilities (stormwater, gas, sewer, electricity, telecommunications etc.) and landscaping works on land owned or managed by Council.

Reason: To protect the land owned or managed by Council.

Installation and Maintenance of Sediment and Erosion Control

Prior to commencement of works on site, sediment and erosion controls must be installed along the immediate downslope of the works area in accordance with Landcom's 'Managing Urban Stormwater: Soils and Construction' (2004).

The erosion controls shall be maintained in an operational condition until the development activities have been completed and the site fully stabilised. Sediment shall be removed from the sediment controls following each heavy or prolonged rainfall period. Techniques used for erosion and sediment control on site are to be adequately maintained and monitored at all times, particularly after periods of rain, and shall remain in proper operation until all development activities have been completed and the site is sufficiently stabilised with vegetation.

Reason: To protect the surrounding environment from the effects of sedimentation and erosion from the site.

Dilapidation Report of Land Owned or Managed by Council

A Pre-Construction Dilapidation Report shall contain a survey of pre-existing land features including photographic record of the land under Council's care control and management adjoining the development, detailing the physical condition of items such as, but not exclusively limited to, physical assets such as foreshore alignment, foreshore walls, ground levels across the Reserve, utilities, furniture, trees, gardens, lawn areas, and any rock outcrops.

This Pre-Construction Dilapidation Report shall be submitted to Council and the Certifying Authority prior to commencement of works.

Any damage to these assets during the works must be replaced like for like to the satisfaction of Council and the Certifying Authority.

The applicant may be held liable to any damage to public infrastructures in the vicinity of the site, where such damage is not accurately recorded under the requirements of this condition. In this regard, where required, the damage deposit lodged by the applicant may be used by Council to repair such damage on Council's property.

Reason: Protection of Council's assets.

CONDITIONS TO BE COMPLIED WITH DURING DEMOLITION AND BUILDING WORK

No Access Through Land Owned or Managed by Council

Site access is not approved for delivery of materials nor construction of the development through adjacent land owned or managed by Council, without the written approval of Council.

Reason: Public safety, landscape amenity and tree protection.

Storage of Materials on Land Owned or Managed by Council Prohibited

The dumping or storage of building materials, spoil, vegetation, green waste or any other material in land owned or managed by Council is prohibited.

Reason: Public safety and environmental protection.

Protection of Council's Public Assets

Any damage to Council's public assets shall be made good by the applicant, and/or the contractor, to the satisfaction of Council.

Council's public assets include, but is not limited to, the following: foreshore alignment, foreshore walls, ground levels across the Reserve, utilities, furniture, trees, gardens, lawn areas, rock outcrops, recreational facilities and the like, within the meaning of the Local Government Act 1993.

Reason: To protect and/or restore any damaged public asset.

CONDITIONS WHICH MUST BE COMPLIED WITH PRIOR TO THE ISSUE OF THE OCCUPATION CERTIFICATE

Post-Construction Dilapidation Report of Land Owned or Managed by Council

Post-Construction Dilapidation Report of the land under Council's care control, including photos of any damage evident at the time of inspection, must be submitted after the completion of works.

The report must:

- Compare the post-construction report with the pre-construction report,
- Clearly identify any recent damage and whether or not it is likely to be the result of the development works,
- Should any damage have occurred, the evidence of like for like replacement to the satisfaction of Council.

Copies must also be lodged with Council.

The applicant may be held liable to any damage to public infrastructures in the vicinity of the site, where such damage is not accurately recorded under the requirements of this condition. In this regard, where required, the damage deposit lodged by the applicant may be used by Council to repair such damage on Council's property.

Details demonstrating compliance with this condition are to be submitted to the Principal Certifying Authority prior to the issuing of any Occupation Certificate.

Reason: Protection of Council's assets.
