Officer comments

Council's Biodiversity referrals team have assessed the Development Application for compliance against the following applicable biodiversity related controls:

- Biodiversity Conservation Act 2016
- Biodiversity Conservation Regulation 2017
- Pittwater LEP cl. 7.6 Biodiversity Protection
- Pittwater 21 DCP cl. B4.7 Pittwater Spotted Gum Forest - Endangered Ecological Community
- Coastal Management SEPP 2018 cl.11 Development on land in proximity to coastal wetlands or littoral rainforest

The site is located within the Department of Planning, Industry and Environment's (DPIE) Biodiversity Values Mapping. Any removal of native vegetation from within mapped areas will trigger the Biodiversity Offset Scheme (BOS). As the proposal does not involve the removal of any native vegetation from within the site, the BOS is not triggered.

The application does not require the removal of prescribed trees or vegetation, nor is it likely to impact on nearby biodiversity values. Subject to these conditions the Biodiversity referral team find the application to be consistent against relevant environmental controls.

The proposal is therefore supported.

Note: Should you have any concerns with the referral comments above, please discuss these with the Responsible Officer.
