RE: DA2020/123 – Harbord Diggers Bowling Green

As a member of Harbord Diggers for over 50 years I enjoyed playing Bowls on the old Bowling Greens on the rooftop of Harbord Diggers for many years until the Club closed. One of the main reasons for purchasing an apartment in the new complex was that there was going to be a Bowling Green on the Rooftop as it was in the old Club. I am so pleased to see that finally after waiting for over 6 years that we may finally get a Bowling Green at Harbord Diggers.

I have missed playing Bowls as it was an important part of my life although I have been bowling at Manly Bowling Club also run by the Mounties Group, it will be so much more convenient to bowl closer to home which will be virtually on my door step. Currently there are 20 plus Residents who bowl at Manly Bowling Club and I'm sure once the Bowling Green is completed at Harbord Diggers they will be happy to play closer to home.

Both the Community & Residents also enjoy other activities on the current Green including Yoga (see attached) croquet, Tai Chi etc.. The new Bowling Green will give additional benefits to the wider community as well as the Residents.

I do sincerely hope that Northern Beaches Council will look favourably on this proposal.
