RE: DA2021/2173 - 394 Barrenjoey Road NEWPORT NSW 2106

I am delighted with the proposal for the new SLSC development particularly blending the heritage and the modern Architecture coming together to provide a striking visual affect to enhance the park/beach scape as a impressive public building.

Newport Surf club needs to increase its storage space of essential rescue equipment and provide a functional training space to members to maintain important skills to save lives. The new design will provide suitable areas for various community use and desperately needs to be brought up to current building standards to make it a safe work environment.

The council propose investment in the development of the Newport SLSC is to be commended and I consider the local community will benefit from this building for years to come .
