Detailed Assessment

**B2.2 Subdivision - Low Density Residential Areas**

The modification application seeks to delete condition F12 of the previous development consent (N0367/12, as modified in Mod2018/0043).

Condition F12 currently reads:

*The area of the site identified as SP2 zoning is to be identified on any plan of subdivision.*

The applicant has received updated correspondence from Roads & Maritime Services (RMS), dated 15 February 2019 which provides the following comment:

*RMS would raise no objection to the removal of this condition (noted as Condition F12 on Council determination) and, therefore, consents to the removal of area marked "(SP2) - Site of Proposed Future Acquisition by Roads & Maritime Services (RMS)" from your proposed Deposited Plan for subdivision.*

Based on the above, it is considered that the identification of the SP2 zoning on a plan of subdivision for this particular site is not required. Therefore, the request for the deletion of this condition can be supported.

**THREATENED SPECIES, POPULATIONS OR ECOLOGICAL COMMUNITIES**

The proposal will not significantly effect threatened species, populations or ecological communities, or their habitats.

**CRIME PREVENTION THROUGH ENVIRONMENTAL DESIGN**

The proposal is consistent with the principles of Crime Prevention Through Environmental Design.

**CONCLUSION**

The site has been inspected and the application assessed having regard to all documentation submitted by the applicant and the provisions of:

- Environmental Planning and Assessment Act 1979;
- Environmental Planning and Assessment Regulation 2000;
- All relevant and draft Environmental Planning Instruments;
- Pittwater Local Environment Plan;
- Pittwater Development Control Plan; and

- Codes and Policies of Council.

This assessment has taken into consideration the submitted plans, Statement of Environmental Effects, all other documentation supporting the application and public submissions, and does not result in any unreasonable impacts on surrounding, adjoining, adjacent and nearby properties subject to the conditions contained within the recommendation.

In consideration of the proposal and the merit consideration of the development, the proposal is considered to be:

- Consistent with the objectives of the DCP
- Consistent with the zone objectives of the LEP
- Consistent with the aims of the LEP
- Consistent with the objectives of the relevant EPIs
- Consistent with the objects of the Environmental Planning and Assessment Act 1979

It is considered that the proposed development satisfies the appropriate controls and that all processes and assessments have been satisfactorily addressed.

## **RECOMMENDATION**
