RE: DA2020/1039 - 15 Jubilee Avenue WARRIEWOOD NSW 2102

Please do not allow this application to go through. The traffic levels along Macpherson Street are already too much in peak hours with a lot of traffic crossing from Pittwater Road to Mona Vale Road along Garden and Macpherson. It starts early, from 5.00am and the noise builds as more cars travel via this street, not to mention the school buses to Mater Maria College and public buses. It continues all day and quite late into the night. We have enough trouble trying to get out of the driveway as it is, and the noise is disturbing our sleep.

Macpherson and Garden Streets are not wide enough for the amount of traffic now without having a complex such as a bus depot in the next street. Parking is also a huge issue. Another matter, try crossing the road to get to the bus stop to the city or the IGA supermarket. There is no safe pedestrian crossing from my side of the street (26 Macpherson) and many drivers don't care about pedestrians trying to get across the road, so adding another level of traffic will be horrendous. Please listen to the people who live in this area and the impact a nearby bus depot with associated increased traffic will have on their ability to live with safe amenity, including no increase in noise levels.
