### Compliance Assessment

Clause	Compliance with Requirements	Consistency Aims/Objectives
A.5 Objectives	Yes	Yes
C2 Traffic, Access and Safety	Yes	Yes
C3 Parking Facilities	Yes	Yes
D3 Noise	Yes	Yes
D18 Accessibility	Yes	Yes
E7 Development on land adjoining public open space	Yes	Yes
E10 Landslip Risk	Yes	Yes
E11 Flood Prone Land	Yes	Yes
Appendix 1 Car Parking Requirements	Yes	Yes

### Detailed Assessment

#### C3 Parking Facilities

The Warringah Development Control Plan (DCP) 2011 requires parking for commercial and child care centre uses to be provided at the rates shown listed:

<b>Existing</b>	Office Premises (119m <sup>2</sup> )	1 space per 40m <sup>2</sup>
<b>Proposed</b>	Pilates Studio is closely related to a Gymnasium (119m <sup>2</sup> )	4.5 spaces per 10

The approved development contains three levels of basement parking containing a total of 1,035 parking spaces.

As indicated in the table above, the proposed Gymnasium rate has been used to calculate the appropriate rate for the proposed Pilates Studio, which requires a total of 5 parking spaces (rounded up) to comply with the DCP. The Assessment of the original Development Application (DA2016/0705) for the redevelopment of the site allowed a discounted parking rate (25% reduction) in car parking on the basis that the facility is located within a Town Centre and is part of a mixed-use development.

The reduction in the DCP rate is also consistent with the proposed parking provision for the Dee Why Town centre, which states:

*The DCP rate for gymnasiums corresponds with the parking rate recommended in the RMS Guide to Traffic Generating Developments for metropolitan sub-regional areas. In regional centres that are in close proximity to rail/bus services, a parking rate of 3.0 spaces per 100m<sup>2</sup> gross floor area is recommended. As Dee Why is identified as a Strategic Centre under A Plan for Growing Sydney (NSW Department of Planning and Infrastructure), it is considered a metropolitan regional centre under direction from an accompanying technical note published by the RMS (Car parking requirements in*

SEPP 65).

Accordingly, the RMS parking requirement for a gymnasium in a metropolitan regional centre is 3 spaces per 100m<sup>2</sup> GFA, which equates to a requirement of 3.5 spaces (rounded up to 4 spaces) for the proposed Pilates Studio. The approved commercial spaces that is proposed to convert to the Pilates studio have 3 parking spaces currently allocated to it.

Based on the fact the site is located within the Town centre, the Pilates Studio has a scheduled timetable and is operated all day along, and the customers are likely to use the available retail parking shared by all the uses, the three car parking spaces are considered to be sufficient for the proposed use.

Accordingly, the car parking provision is found to be acceptable.

### **THREATENED SPECIES, POPULATIONS OR ECOLOGICAL COMMUNITIES**

The proposal will not significantly effect threatened species, populations or ecological communities, or their habitats.

### **CRIME PREVENTION THROUGH ENVIRONMENTAL DESIGN**

The proposal is consistent with the principles of Crime Prevention Through Environmental Design.

### **POLICY CONTROLS**

#### **Northern Beaches Council Contributions Plan 2018**

As the estimated cost of works is less than \$100,001.00 the policy is not applicable to the assessment of this application.

### **CONCLUSION**

The site has been inspected and the application assessed having regard to all documentation submitted by the applicant and the provisions of:

- Environmental Planning and Assessment Act 1979;
- Environmental Planning and Assessment Regulation 2000;
- All relevant and draft Environmental Planning Instruments;
- Warringah Local Environment Plan;
- Warringah Development Control Plan; and
- Codes and Policies of Council.

This assessment has taken into consideration the submitted plans, Statement of Environmental Effects, all other documentation supporting the application and public submissions, and does not result in any unreasonable impacts on surrounding, adjoining, adjacent and nearby properties subject to the conditions contained within the recommendation.

In consideration of the proposal and the merit consideration of the development, the proposal is considered to be:

- Consistent with the objectives of the DCP
- Consistent with the zone objectives of the LEP

- Consistent with the aims of the LEP
- Consistent with the objectives of the relevant EPIs
- Consistent with the objects of the Environmental Planning and Assessment Act 1979

It is considered that the proposed development satisfies the appropriate controls and that all processes and assessments have been satisfactorily addressed.
