RE: DA2020/0393 - 28 Lockwood Avenue BELROSE NSW 2085

I live in the local area and fully support this development. Council should approve the DA as I believe the building design and location will improve the community. I don't believe there will be any impact on local area and infact will provide much need diveristy of housing in Belrose and the proposed green park will be a great place to gather and enjoy the parks, not to mention the jobs this type of development will create - I fully support this development - Application Number: DA2020/0393.
