**RE: DA2020/0393 - 28 Lockwood Avenue BELROSE NSW 2085**

I submit my views on this development, which in my believe to be a great development and has my full support. The council should approve this development Application Number: DA2020/0393. The objections raised by the local community are unrealistic. The development will a great addition to the local area for diversity of homes to be made available in this area and the developers appear to have done much to enhance the community services. The plans and reports appear to support the development which the council should approve. There appears to be plenty of residential and commerical parking as shown on the plans. There will be many jobs for the community from this development and there will be parks that locals can use. I fully support this development.
