**Subject:** ATTN: Rebecca Englund - Sydney Water Comments - 23, 25 & 27 Warriewood Road, Warriewood  
**Attachments:** image001.png;

Dear Ms Englund,

Thank you for referring the above development to Sydney Water.

The property does contain an 1800mm gravity trunk main which traverses the site. Sydney Water's Networks team has reviewed the application and they have no issue with the tree removal. However, the standard process of checking the location of the Sydney Water asset in relation to the work site should be implemented to ensure that there is no damage to Sydney Water's asset.

Sydney Water also provided comments on a previous DA for the site in December 2018 which are attached to this email. This response contained comments regarding easements on the site which remain relevant.

If you require any further information, please contact the Growth Planning team at [urbangrowth@sydneywater.com.au](mailto:urbangrowth@sydneywater.com.au).

Regards,
