**RE: Mod2017/0106 - 894 Pittwater Road DEE WHY NSW 2099**

Hey there,

I would formally object to the extended hours of work across the road from my place in deewhy. I leave home very early and get home around finish of the work day. Extending these hours until 8:30 pm is going to make living here uncomfortable as we will be enduring noise after work hours while we try and relax at the end of the day all so some developer can make more money and keep to schedule.

Saturday mornings are noisy enough, you get woke. Up. Y the trucks and workers so ALL day Saturday is pretty unfair.

The other thing in the letter we received its very unclear how long these extended hours will last, a week, a month? Or the length of the entire build in which case we will probably move somewhere else.

Please take this into consideration when considering their permit.
