RE: REV2021/0006 - 181 Allambie Road ALLAMBIE HEIGHTS NSW 2100

STRONG OBJECTION

This development has been refused planning permission twice already and should not proceed. When is no NO! As per my last submission this proposed development damages critical land, flora and fauna bordering Manly Dam catchment. The adjacent catchment areas need to be protected. We have seen what happens when approval is given for so called safe developments at the local school. Rules are broken, protected areas ignored and fines shrugged off.

Please protect Mably Dam catchment and adjacent Bush. It is a gem for all to use with rate and protected species.

I strongly object to the proposed development.
