## PART 6 Notes for Completing Application for a Complying Development

---

1. A description of the land to be developed can be given in the form of a map which contains details of the lot number, DP/MPS, vol/foi etc.
2. A plan of the land must indicate:
  - a) location, boundary dimensions, site area and north point of the land
  - b) existing vegetation and trees on the land
  - c) location and uses of existing buildings on the land
  - d) existing levels of the land in relation to buildings and roads
  - e) location and uses of buildings on sites adjoining the land
3. Plans or drawings describing the proposed development must indicate (where relevant):
  - a) the location of proposed new buildings or works (including extensions or additions to existing buildings or works) in relation to the land's boundaries and adjoining development
  - b) floor plans of proposed buildings showing layout, partitioning, room sizes and intended uses of each part of the building
  - c) elevations and sections showing proposed external finishes and heights
  - d) proposed finished levels of the land in relation to buildings and roads
  - e) building perspectives, where necessary to illustrate the proposed building
  - f) proposed parking arrangements, entry and exit points for vehicles, and provision for movement of vehicles within the site (including dimensions where appropriate)
  - g) proposed landscaping and treatment of the land (indicating plant types and their height and maturity)
  - h) proposed methods of draining the land.

4. The following information must also accompany a Complying Development Certificate application for building work and change of building use:

### **Building Work**

In the case of an application for a Complying Development Certificate for **building work**:

- a) copies of compliance certificates relied upon
- b) four (4) copies of detailed plans and specifications

The plan for the building must be drawn to a suitable scale and consist of a general plan and a block plan. The general plan of the building is to:

- show a plan of each floor section
- show a plan of each elevation of the building
- show the levels of the lowest floor and of any yard or unbuilt on area belonging to that floor and the levels of the adjacent ground
- indicate the height, design, construction and provision for fire safety and fire resistance (if any).

Where the proposed building work involves any alteration or addition to, or rebuilding of, an existing building the general plan is to be coloured or otherwise marked to the satisfaction of the certifying authority to adequately distinguish the proposed alteration, addition or rebuilding.

Where the proposed building work involves a modification to previously approved plans and specifications the general plans must be coloured or otherwise marked to the satisfaction of the certifying authority to adequately distinguish the modification.

The specification is:

- to describe the construction and materials of which the building is to be built and the method of drainage, sewerage and water supply
  - state whether the materials proposed to be used are new or second hand and give particulars of any second hand materials used
- c) where the application involves an alternative solution to meet the performance requirements of the BCA, the application must also be accompanied by:
    - details of the performance requirements that the alternative solution is intended to meet, and
    - details of the assessment methods used to establish compliance with those performance requirements
  - d) if relevant, evidence of any accredited component, process or design sought to be relied upon
- NB** if an EPI provides that complying development must comply with the deemed to satisfy provisions of the BCA a CDC cannot authorise compliance with alternative solutions to the performance requirements corresponding to those deemed-to-satisfy provisions
- e) except in the case of a class 1a or class 10 building:

- a list of any fire safety measures that are proposed to be implemented in the building or on the land on which the building is situated, and
- if the application relates to a proposal to carry out any alteration or rebuilding of, or addition to, an existing building, a separate list of such of those measures as are currently implemented in the building or on the land on which the building is situated.

The list must describe the extent, capability and basis of design of each of the measures concerned.

### **Change of Building Use**

In the case of an application for a Complying Development Certificate for a **change of building use** (except for an application that, if granted, would authorise the building concerned being used as a class 1a or class 10 building):

- a list of any fire safety measures that are proposed to be implemented in the building or on the land on which the building is situated in connection with the proposed change of building use.
- a separate list of such of those measures as are currently implemented in the building or on the land on which the building is situated.

The list must describe the extent, capability and basis of design of each of those measures concerned.

- 
5. Other information must indicate (where relevant):
- a) in the case of shops, offices, commercial or industrial development:
    - details of hours of operation
    - plant and machinery to be installed
    - type, size and quantity of goods to be made, stored or transported, loading and unloading facilities
  - b) in the case of demolition:
    - details of age and condition of buildings or works to be demolished
  - c) in the case of advertisements:
    - details of the size, type, colour, materials and position of the sign board or structure on which the proposed advertisement is to be displayed
  - d) in the case of development relating to an existing use:
    - details of the existing use
  - e) in the case of a development involving the erection of a building, work or demolition:
    - details of the methods of securing the site during the course of construction.
- 

6. **Home Building Act Requirements**

In the case of an application for a Complying Development Certificate for residential building work (within the meaning of the *Home Building Act 1989*) attach the following:

- (a) in the case of work by a licensee under that Act:
  - (i) a statement detailing the licensee's name and contractor licence number (*If a licensed builder is carrying out the work provide a copy of the builder's Licence*), and
  - (ii) documentary evidence that the licensee has complied with the applicable requirements of the Act *\*(a copy of the Certificate of Insurance for the project if the value of work is greater than \$5,000)*, or
- (b) in the case of work done by any other person:
  - (i) a statement detailing the person's name and owner-builder permit number, (*If the work is to be done by any other person provide a copy of the Owner Builders Permit*) or
  - (ii) a declaration signed by the owner of the land, to the effect that the reasonable market cost of the labour and materials involved in the work is less than the amount prescribed for the purposes of the definition of **owner-builder work** in section 29 of that Act. (*If the building work is less than \$12,000 provide a statement that states the proposed work is less than \$12,000*)

\* A certificate purporting to be issued by an approved insurer under Part 6 of the *Home Building Act 1989* to the effect that a person is the holder of an insurance contract issued for the purposes of that Part, is sufficient evidence that the person has complied with the requirements of that Part.

7. **Long Service Levy**

Under s 85A (10A) of the *Environmental Planning and Assessment Act 1979* a Complying Development Certificate cannot be issued until any long service levy payable under section 34 of the *Building and Construction Industry Long Service Payments Act 1986* (or where such a levy is payable by instalments, the first instalment of the levy) has been paid. The local council may be authorised to accept payment.

- 1 Notification of all affected persons is required, in accordance with council's Notification DCP adopted 28/6/99, on the date of receipt of the Complying Development Certificate application.

##### Before Commencement

- 2 Form 7 of the regulation (notice of commencement of work and appointment of Principal Certifying Officer, ie the PCA) must be submitted to Council 2 days prior of any work commencing.
- 3 Notify Council 2 days prior to that work commencing.

#### Additional conditions applying to specific types of complying development

Category	Condition No	Condition	Type of complying development to which the condition applies (being a type identified by the following number in the Table to Schedule 9)
Access	4	Where a construction of a vehicular footpath Crossing is required, the design and construction shall be in accordance with Council's Policy. The crossing must be completed prior to issue of the Occupation Certificate.	1, 4, 6, 7, 8
	5	The existing surplus vehicular crossing and/or kerb layback shall be removed and the kerb and nature strip reinstated prior to issue of the Occupation Certificate.	1, 4, 6, 7, 8
	6	Any driveway within the property cannot exceed 5% slope at any point.	1, 4, 6, 7, 8
Building Construction	7	Any retaining walls must be constructed in accordance with a structural engineer's details. Certification of compliance with the structural detail during construction must be submitted to the Principal Certifying Authority.	1, 4, 6, 13

	8	All construction shall be strictly in accordance with the Reduced Levels (RLs) as shown on the certified plans. Certificates of compliance prepared by a registered surveyor, showing compliance with ground and finished ridge levels, must be submitted to the Principal Certifying Authority.	1, 4, 6
	9	A Certificate of Adequacy signed by a practising Structural Engineer must be submitted to the Principal Certifying Authority in respect of the load carrying capabilities of the existing structure to support the proposed additions.	1, 2, 4, 7
	10	The floor surfaces of bathrooms, shower rooms, laundries and WC compartments are to be of an approved impervious material, properly graded and drained and waterproofed. Certification is to be provided to the Principal Certifying Authority from a licensed applicator prior to the fixing of any wall or floor tiles	1, 2, 4, 7, 8, 13
	11	All materials and finishes of the proposed additions are to match, as closely as possible the material and finish of the existing building.	1
	12	A suitable sub-surface drainage system must be provided adjacent to all excavated areas and such drains must be connected to an approved disposal system.	1, 4, 6, 10
	13	Prior to excavation applicants must contact Sydney One Call Service to ascertain which utility services are underground in the proposed excavation.	1, 4, 6, 10
	14	An adequate security fence, must be erected around the perimeter of the site prior to commencement of any excavation or construction works, and this fence must be maintained in a state of good repair and condition until completion of the building project.	1, 4, 6, 13
Building Materials	15	All plumbing and drainage, including sewerage drainage stacks, ventilation stacks and water service pipes must be concealed within the building. Plumbing other than stormwater downpipes must not be attached to the external surfaces of the building.	1, 2, 4, 7
Car Parking	16	An approved water interceptor must be provided across the driveway at the street boundary and all stormwater must be conveyed by underground pipe to Council's street gutter.	4, 6
Drainage and Stormwater	17	Roofwater and surface stormwater from paved areas must be conveyed by pipeline to Council's street gutter.	1, 4, 6, 13
	18	The width of inter-allotment drainage easements is no less than: (a) 1.0m for pipes up to 150mm, or	1, 4, 6

(b) 2.5m for pipes larger than 150mm

The easements must be free of encroachments and contain only a single pipeline.

	19	Where a concrete floor of any habitable room is laid directly on the ground, the floor must be adequately damp-proofed to prevent moisture entering the building.	1, 2, 4, 7, 8
Fencing	20	The details of the materials, size, height and design of all fences, including front, side and rear fences must be submitted to the Principal Certifying Authority prior to that stage of work being commenced.	4, 5, 6
Trees	21	A barrier or temporary fence must be erected around the existing street trees in front of the subject property to protect them from damage during construction.	1, 4, 6
	22	No existing street trees may be removed without Council approval. Where such approval is granted, the trees must be replaced at full cost by the applicant with super advanced trees of a species nominated by Council's relevant officer.	1, 3, 4, 9, 13
Road Reserve	23	Where the driveway construction necessitates the removal of street planting, a replacement tree of the same species must be planted elsewhere on the lot frontage. Details must be provided with the application for a Construction Certificate	4, 6
Lighting	24	Any ancillary light fittings fitted to the exterior of the building must be shielded or mounted in a position to minimise glare to adjoining properties.	1, 3, 4, 6, 7, 8, 9, 13
Miscellaneous	25	<b>Prior to the commencement of works</b> on the land including demolition and site preparation, silt control fences must be provided. A Sediment/Erosion Control detail must be submitted to the Principal Certifying Authority.	1, 4, 6, 10
	26	All materials on site or being delivered to the site must be contained wholly within the site.	1, 2, 3, 4, 6, 7, 8, 13
	27	All site waters during excavation and construction must be contained on site to avoid pollutants entering into the Harbour or Council's stormwater drainage system.	1, 4, 6
