RE: REV2022/0024 - 394 Barrenjoey Road NEWPORT NSW 2106

The development is an essential progression for the Newport SLSC. With over 800 members, this facility provides not only a community hub but also provides an essential service manned by volunteers. The location site on the beach is vital as a vantage point to watch over beach goers to ensure no lives are lost at Newport. In a world where competition for members has become significant (especially with the development at Mona Vale plus a strong club at Bilgola), Newport must be developed to ensure the club remains strong to continue the positive impact it makes every day at Newport Beach.
