RE: DA2021/1338 - 52 Cabbage Tree Road BAYVIEW NSW 2104

I support the development.

The development is primarily the simple installation of ag line drainage which any householder in the Northern Beaches Council including those adjacent to the golf club can do without a DA.

Further, golf courses on Council or Government land in the northern beaches do not require a DA to do exactly the same ag line installation as proposed in this DA. Indeed, those golf courses receive Council funding to install exactly similar ag line drainage via the Council grant process.

The proposed works are of great value to the playability of the golf course and therefore of benefit to the community-Bayview is a public access course.

Stop torturing the golf club.

regards
Marten Touw
