Forestville NSW 2087

RE: DA 2019/1202

Lot 1 DP 1241045 and Lot 10 DP 30959

9 Lolita Ave Forestville NSW 2087

We have lived in Lolita Avenue for 45 years and have enjoyed the suburban environment and views across the valley, for that time. From our understanding of this development application, we see the increase in height and size of the structure, having a significant impact on what we have enjoyed for so long.

Our valley outlook will be reduced and will have this huge structure dominant. We also see a development of this magnitude becoming the dominant structure in the street and changing the suburban nature of the whole street.

It is our hope that this application can be changed to conform to the 8.5m building height restrictions and become of a size where it is in keeping with the general constructions within the street.

Regards and thanks

Jeffrey and Gaye Thwaites
