Officer comments

Waste Management Assessment - Amended Plans (submitted 18/10/2022)
Recommendation -Supported, subject to conditions.

Waste Management Assessment
Recommendation - Unacceptable.

Specifically:
Residential Bin Storage Room

- The bins are double banked - unacceptable

Each row of bins must be accessible via a 1 metre wide aisle.

Retail Bin Storage Room

- The bins are triple banked

Each row of bins must be accessible via a 1 metre wide aisle.

- The retail bin storage room is only accessible via the residential bin room

Separate entrances for each room is required. Retail tenants must not be able to access the residential bin room.

I believe it is possible to resolve these issues by re-arranging the residential binroom, retail binroom

and bulky goods room layout with in the same footprint.
I am available to discuss these issues with the applicant/architect.
Ray Creer
Waste Services Officer

The proposal is therefore supported.

Note: Should you have any concerns with the referral comments above, please discuss these with the Responsible Officer.
