RE: Mod2021/0226 - 615 Pittwater Road DEE WHY NSW 2099

Hi Team,

I note in the submission there looks to be a reduction in car parking conditions for this new development.

I believe this is a significant problem given there is a severe shortage of street parking in this area which may soon be reduce further with the Councils recent assessment that parking should be stopped on May Road between Victor Road and Mooramba Road (Reference TrP2021/00273).

I therefore have concerns with the DA request to reduce parking on the premises as this will add further strain to an already strained environment.
