RE: DA2020/1758 - 11 Lewis Street BALGOWLAH HEIGHTS NSW 2093

As a resident of 69 Ernest Street for more than ten years and having had three children attend the School at Lewis Street, it is hard to believe a childcare centre bordering on the school for 57 children is even a consideration without Lewis Street being made a pedestrian area only. It is so dangerous and if permission is granted for a childcare facility so close to where children walk to school on their own with limited parking where even my own children used to be "park rangers" there will be a catastrophe at some point its not if it is just when. Lewis Street is a narrow street with boats and caravans and the traffic chaos has always been horrible please do not approve this idea its just not a viable option and should it go ahead without adequate safety profiling would be negligent to say the least there are plenty of other options and the childcare schools in the area have room to accommodate local children already. This is a bad idea.
