

## Parks, Reserves and Foreshores Referral Response

<b>Application Number:</b>	DA2022/0760
<b>Date:</b>	13/07/2022
<b>To:</b>	Brittany Harrison
<b>Land to be developed (Address):</b>	Lot 20 DP 221359 , 70 Nandi Avenue FRENCHS FOREST NSW 2086

### Reasons for referral

This application seeks consent for any application on land or land being adjoining or adjacent to any parks, reserves, beaches, or foreshore  
And as such, Council's Parks, Reserves and Foreshores officers are required to consider the likely impacts of the proposal.

### Officer comments

The development application is for alterations and additions to the existing dwelling, as described and illustrated in the reports and plans.

The application is assessed by Parks Reserves and Foreshores Referral against Warringah Local Environmental Plan 2011 and the following Warringah Development Control Plan 2011 control (but not limited to):

- E7 Development on land adjoining public open space

The development site adjoins the Nandi Reserve that is located downslope of the property. No physical encroachments are permitted over the site boundary, and new structures and built elements are not permitted beyond the site boundaries. All development works must ensure that surface sediment runoff and/or erosion is controlled, managed and contained within the site boundaries and prevented from travelling across the boundary and into the foreshore, and conditions shall be imposed to satisfy this requirement.

Concern is raised that the proposed development, without information on landscape outcomes and treatments along the common boundary with the public Reserve, does not satisfy the objectives and requirements of Warringah Development Control E7, including:

- Development on land adjoining open space is to complement the landscape character and public use and enjoyment of the adjoining parks, bushland reserves and other public open spaces.

#### Requirements

- Buildings are to be located to provide an outlook to public open space, without appearing to privatise that space.
- Development is to provide a visual transition between open space, bushland reserves or other public spaces and buildings, including avoiding abutting public open space with back fences.
- Development is to protect views to and from public open space.
- Development is to utilise landscaping or existing landscape elements to screen development.

It is raised that the proposed development appears to privatise the public Reserve through direct visual overlooking and prominence of the dwelling including decking into the public Reserve without any landscape buffer treatment.

The proposal is therefore unsupported.

Note: Should you have any concerns with the referral comments above, please discuss these with the Responsible Officer.
