RE: DA2018/1602 - 57 Robertson Road SCOTLAND ISLAND NSW 2105

I am a resident of Scotland Island.

I would like to register our objection to the above development application, in particular the waterfront fence.

I feel it is that it is not at all in character with the surrounding area and environment.

If you look at all the other waterfront houses there are very few (if any) such fences. In addition, the waterfront itself should be open to thoroughfare and having fences next to the water gives the feeling that it is not open.

I would also like to highlight that 57 Robertson Rd has put up a handrail on the waterfront itself to block thoroughfare - this is illegal and is not allowed. It means that any thoroughfare must climb around/under or are blocked. It also represents a safety concern to older/younger passerbys.

Thank you

Gerry
