RE: DA2018/1924 - Forest Way FRENCHS FOREST NSW 2086

I have family including primary aged schoolchildren living in Deakin St and Bentley Ave, Forestville and whilst I support the development of Forestway Shopping Centre I have major concerns that the current proposal will significantly adversely impact Grace Ave and the surrounding suburban streets and create significant congestion to an already busy residential street. I am especially concerned about the area bordering Altona Ave, Deakin St and Grace Ave. The children from nearby Frenchs Forest Public School would also be endangered from all the extra traffic. These are all suburban streets and through traffic should be kept to a minimum. I request that before this development is allowed to proceed the entry and exit points to Forestway shops should only be via Forest Way and Warringah Road, and not the local back residential streets. Thank you.
