

DEVELOPMENT APPLICATION ASSESSMENT REPORT

Application Number:	DA2020/0215
----------------------------	-------------

Responsible Officer:	Maxwell Duncan
Land to be developed (Address):	Lot 1 SP 4666, 1 / 7 Addison Road MANLY NSW 2095
Proposed Development:	Alterations and additions to an existing dwelling
Zoning:	Manly LEP2013 - Land zoned E4 Environmental Living
Development Permissible:	Yes
Existing Use Rights:	No
Consent Authority:	Northern Beaches Council
Land and Environment Court Action:	No
Owner:	Mark Lloyd Williams
Applicant:	Mark Lloyd Williams

Application Lodged:	06/03/2020
Integrated Development:	No
Designated Development:	No
State Reporting Category:	Residential - Alterations and additions
Notified:	27/03/2020 to 10/04/2020
Advertised:	Not Advertised
Submissions Received:	0
Clause 4.6 Variation:	Nil
Recommendation:	Approval

Estimated Cost of Works:	\$ 10,000.00
---------------------------------	--------------

PROPOSED DEVELOPMENT IN DETAIL

The application seeks consent for an extension to the ground floor balcony on the north-western side of the building.

Image 1- Site plan confirming location of proposed works.

ASSESSMENT INTRODUCTION

The application has been assessed in accordance with the requirements of the Environmental Planning and Assessment Act 1979 and the associated Regulations. In this regard:

- An assessment report and recommendation has been prepared (the subject of this report) taking into account all relevant provisions of the Environmental Planning and Assessment Act 1979, and the associated regulations;
- A site inspection was conducted and consideration has been given to the impacts of the development upon the subject site and adjoining, surrounding and nearby properties;
- Notification to adjoining and surrounding properties, advertisement (where required) and referral to relevant internal and external bodies in accordance with the Act, Regulations and relevant Development Control Plan;
- A review and consideration of all submissions made by the public and community interest groups in relation to the application;
- A review and consideration of all documentation provided with the application (up to the time of determination);
- A review and consideration of all referral comments provided by the relevant Council Officers, State Government Authorities/Agencies and Federal Government Authorities/Agencies on the proposal.

SUMMARY OF ASSESSMENT ISSUES

Manly Development Control Plan - 3.4.2 Privacy and Security

SITE DESCRIPTION

Property Description:	Lot 1 SP 4666 , 1 / 7 Addison Road MANLY NSW 2095
Detailed Site Description:	<p>The subject site consists of one (1) allotment located on the north-western side of Addison Road.</p> <p>The site is /irregular in shape with a frontage of 6m along Addison Road and a average depth of 56m. The site has a surveyed area of 834.7m².</p>

	<p>The site is located within the E4 Environmental Living zone and accommodates 2 storey dwelling with vehicular access via an existing driveway from Addison Street to an existing garage to the front of the dwelling.</p> <p>The property slopes from southeast to northwest and includes a crossfall of approximately 14m.</p> <p>The Manly LEP 2013 identifies the site as containing terrestrial biodiversity.</p> <p>Detailed Description of Adjoining/Surrounding Development</p> <p>The surrounding area includes a mix of dwelling houses and residential flat buildings in landscaped settings.</p>

SITE HISTORY

A search of Council's records has revealed that there are no recent or relevant applications for this site.

The land has been used for residential purposes for an extended period of time.

ENVIRONMENTAL PLANNING AND ASSESSMENT ACT, 1979 (EPAA)

The relevant matters for consideration under the Environmental Planning and Assessment Act, 1979, are:

Section 4.15 Matters for Consideration'	Comments
Section 4.15 (1) (a)(i) – Provisions	See discussion on "Environmental Planning Instruments" in this

Section 4.15 Matters for Consideration'	Comments
of any environmental planning instrument	report.
Section 4.15 (1) (a)(ii) – Provisions of any draft environmental planning instrument	Draft State Environmental Planning Policy (Remediation of Land) seeks to replace the existing SEPP No. 55 (Remediation of Land). Public consultation on the draft policy was completed on 13 April 2018. The subject site has been used for residential purposes for an extended period of time. The proposed development retains the residential use of the site, and is not considered a contamination risk.
Section 4.15 (1) (a)(iii) – Provisions of any development control plan	Manly Development Control Plan applies to this proposal.
Section 4.15 (1) (a)(iia) – Provisions of any planning agreement	None applicable.
Section 4.15 (1) (a)(iv) – Provisions of the Environmental Planning and Assessment Regulation 2000 (EP&A Regulation 2000)	<p><u>Division 8A</u> of the EP&A Regulation 2000 requires the consent authority to consider "Prescribed conditions" of development consent. These matters have been addressed via a condition of consent.</p> <p><u>Clause 50(1A)</u> of the EP&A Regulation 2000 requires the submission of a design verification certificate from the building designer at lodgement of the development application. This clause is not relevant to this application.</p> <p><u>Clauses 54 and 109</u> of the EP&A Regulation 2000 allow Council to request additional information. No additional information was requested in this case.</p> <p><u>Clause 92</u> of the EP&A Regulation 2000 requires the consent authority to consider AS 2601 - 1991: The Demolition of Structures. This clause is not relevant to this application.</p> <p><u>Clauses 93 and/or 94</u> of the EP&A Regulation 2000 requires the consent authority to consider the upgrading of a building (including fire safety upgrade of development). This clause is not relevant to this application.</p> <p><u>Clause 98</u> of the EP&A Regulation 2000 requires the consent authority to consider insurance requirements under the Home Building Act 1989. This clause is not relevant to this application.</p> <p><u>Clause 98</u> of the EP&A Regulation 2000 requires the consent authority to consider the provisions of the Building Code of Australia (BCA). This matter has been addressed via a condition of consent.</p>
Section 4.15 (1) (b) – the likely impacts of the development, including environmental impacts on the natural and built environment	<p>(i) Environmental Impact</p> <p>The environmental impacts of the proposed development on the natural and built environment are addressed under the Manly Development Control Plan section in this report.</p>

Section 4.15 Matters for Consideration'	Comments
and social and economic impacts in the locality	<p>(ii) Social Impact The proposed development will not have a detrimental social impact in the locality considering the character of the proposal.</p> <p>(iii) Economic Impact The proposed development will not have a detrimental economic impact on the locality considering the nature of the existing and proposed land use.</p>
Section 4.15 (1) (c) – the suitability of the site for the development	The site is considered suitable for the proposed development.
Section 4.15 (1) (d) – any submissions made in accordance with the EPA Act or EPA Regs	See discussion on “Notification & Submissions Received” in this report.
Section 4.15 (1) (e) – the public interest	No matters have arisen in this assessment that would justify the refusal of the application in the public interest.

EXISTING USE RIGHTS

Existing Use Rights are not applicable to this application.

BUSHFIRE PRONE LAND

The site is not classified as bush fire prone land.

NOTIFICATION & SUBMISSIONS RECEIVED

The subject development application has been publicly exhibited in accordance with the Environmental Planning and Assessment Act 1979, Environmental Planning and Assessment Regulation 2000 and the relevant Development Control Plan.

As a result of the public exhibition of the application Council received no submissions.

REFERRALS

Internal Referral Body	Comments
NECC (Bushland and Biodiversity)	<p>The proposed development has been assessed against the following provisions:</p> <ul style="list-style-type: none"> - NSW Biodiversity Conservation Act 2016 - Manly LEP Clause 6.5 (Terrestrial Biodiversity) - Manly DCP Clause 5.4.2 (Threatened Species and Critical Habitat Lands) <p>The subject site adjoins the Little Penguin Area of Outstanding Biodiversity Value (AOBV; formerly Critical Habitat) and is within the declared habitat area for the endangered populations of Little Penguins and Long-nosed Bandicoots. as listed under the NSW Biodiversity Conservation Act 2016 (BC Act). Accordingly, a 'Test of</p>

Internal Referral Body	Comments
	<p>Significance' is required to be prepared in accordance with Section 7.3 of the BC Act. Given that the proposed balcony footings are limited to the existing development footprint within the formed backyard (ie. not within the AOBV or penguin habitat area), this assessment has been undertaken internally. Given the minor nature and duration of works, it is considered that the proposal can be undertaken without significant impact to threatened species. Conditions of consent are recommended to manage potential disturbance during construction.</p>
NECC (Coast and Catchments)	<p>The application has been assessed in consideration of the <i>Coastal Management Act 2016</i>, State Environmental Planning Policy (Coastal Management) 2018, Sydney Harbour Catchment Regional Environment Plan, 2005 and Sydney Harbour Foreshores and Waterways Area Development Control Plan, 2005. It has also been assessed against requirements of the Manly LEP and DCP.</p> <p>The application has also been assessed using Northern Beaches SREP assessment template.</p> <p>Coastal Management Act 2016 The subject site has been identified as being within the coastal zone and therefore <i>Coastal Management Act 2016</i> is applicable to the proposed development.</p> <p>The proposed development is in line with the objects, as set out under Clause 3 of the <i>Coastal Management Act 2016</i>.</p> <p>State Environmental Planning Policy (Coastal Management) 2018 As the subject site has been identified as being within the coastal zone and therefore SEPP (Coastal Management) 2018 is also applicable to the proposed development.</p> <p>The subject land has been included on the 'Coastal Environment Area' and 'Coastal Use Area' maps but not been included on the Coastal Vulnerability Area Map under the State Environmental Planning Policy (Coastal Management) 2018 (CM SEPP). Clauses 13 (coastal environment area) and 14 (coastal use area) do not apply as the site is also located within the SREP area. Hence, only Clause 15 of the CM SEPP apply for this DA.</p> <p>Comment:</p> <p>On internal assessment, the DA satisfies requirements under Clause 15 of the CM SEPP.</p> <p>As such, it is considered that the application does comply with the requirements of the State Environmental Planning Policy (Coastal Management) 2018.</p>

Internal Referral Body	Comments
	<p>Sydney Regional Environment Plan (Sydney Harbour Catchment), 2005 Harbour Foreshores & Waterways Area</p> <p>The subject site is located within the Sydney Harbour Catchment and is identified as being within the Foreshores and Waterways Area. Hence Part 2, Clause 14 and Part 3, Division 2 apply in assessing this DA. On internal assessment, it is determined that the Planning Principles and Matters for Consideration of the Area have been met.</p> <p>Manly LEP 2013 and Manly DCP</p> <p>The subject site is also shown to be as "Landslide risk" on Council's Landslide Risk Map in Manly LEP 2013.</p> <p>However, as the proposed development is considered as minor in nature and does not involve excavation or other construction, the Clause 6.8 (Landslide Risk) of the Manly LEP 2013 and Part 4, section 4.1.8 Development on Sloping Sites of the Manly DCP 2013 have not been considered to proposed development on the site.</p> <p>The subject site is also shown to be as "Manly Foreshores Scenic Protection Area" on Council's Foreshores Scenic Protection Area in Manly LEP 2013. As such, Clause 6.9 (Foreshores Scenic Protection Area) of the Manly LEP 2013 and Part 5, section 5.4.1 Foreshores Scenic Protection Area of the Manly DCP 2013 will apply to proposed development on the site.</p> <p>Foreshores Scenic Protection Area Management On internal assessment and as assessed in the submitted Statement of Environmental Effects (SEE) report dated March 2020, the DA satisfies requirements under Clause 6.9 (Foreshores Scenic Protection Area) of the Manly LEP 2013 and Part 5, section 5.4.1 Foreshores Scenic Protection Area of the Manly DCP 2013.</p> <p>As such, it is considered that the application does comply with the requirements of the Clause 6.9 (Foreshores Scenic Protection Area) of the Manly LEP 2013 and Part 5, section 5.4.1 Foreshores Scenic Protection Area of the Manly DCP 2013.</p>
Strategic and Place Planning (Heritage Officer)	HERITAGE COMMENTS
	Discussion of reason for referral
	<p>This application has been referred as the subject property is affected by a heritage item, being Item 11 Harbour foreshores, listed in Schedule 5 of Manly Local Environmental Plan 2013. The listing extends for the full length of the harbour side boundary of this property following the MHWL. According to the survey submitted with the application, most of this foreshore boundary</p>

Internal Referral Body	Comments		
	consists of man-made structures, such as a swimming pool, jetty and stone sea wall.		
	Details of heritage items affected		
	Details of this heritage item as contained within the Manly Heritage Inventory are: <i>Item 11 Harbour foreshores</i> <u>Statement of Significance</u> Natural landscape type - Aesthetic. <u>Physical Description</u> Length of foreshore including natural and built elements of the landscape. Rocky sandstone ledgers, beaches, mud flats and sandstone retaining walls and timber structures.		
	Other relevant heritage listings		
	Sydney Regional Environmental Plan (Sydney Harbour Catchment) 2005	No	Comment if applicable
	Australian Heritage Register	No	
	NSW State Heritage Register	No	
	National Trust of Aust (NSW) Register	No	
	RAIA Register of 20th Century Buildings of Significance	No	
	Other	No	
	Consideration of Application		
	<p>This application proposes the extension of an existing ground floor balcony on the north-western facade of this strata building. It involves a 1 metre extension to the north-west and north-east portions of the balcony with a new wrought iron balustrade to match the existing. The building is not heritage listed, but appears from photos to have Inter-War Spanish Mission features. Extension of the balcony, using the same curved shape and similar wrought iron balustrade will not detract from the Spanish Mission characteristics.</p> <p>In relation to the heritage item affecting this site, as the proposed works are minor and only affecting the existing building on the site, there will be no impact upon the heritage significance of the <i>Harbour Foreshores</i> heritage item.</p> <p>Therefore, no objections are raised on heritage grounds and no conditions required.</p>		

Internal Referral Body	Comments
	<p>Consider against the provisions of CL5.10 of MLEP 2013 Is a Conservation Management Plan (CMP) Required? No Has a CMP been provided? N/A Is a Heritage Impact Statement required? No Has a Heritage Impact Statement been provided? N/A</p> <p>Further Comments</p> <p>COMPLETED BY: Janine Formica, Heritage Planner DATE: 23 March 2020</p>

External Referral Body	Comments
Ausgrid: (SEPP Infra.)	The proposal was referred to Ausgrid. No response has been received within the 21 day statutory period and therefore, it is assumed that no objections are raised and no conditions are recommended.

ENVIRONMENTAL PLANNING INSTRUMENTS (EPIs)*

All, Environmental Planning Instruments (SEPPs, REPs and LEPs), Development Controls Plans and Council Policies have been considered in the merit assessment of this application.

In this regard, whilst all provisions of each Environmental Planning Instruments (SEPPs, REPs and LEPs), Development Controls Plans and Council Policies have been considered in the assessment, many provisions contained within the document are not relevant or are enacting, definitions and operational provisions which the proposal is considered to be acceptable against.

As such, an assessment is provided against the controls relevant to the merit consideration of the application hereunder.

State Environmental Planning Policies (SEPPs) and State Regional Environmental Plans (SREPs)

SEPP 55 - Remediation of Land

Clause 7 (1) (a) of SEPP 55 requires the Consent Authority to consider whether land is contaminated. Council records indicate that the subject site has been used for residential purposes for a significant period of time with no prior land uses. In this regard it is considered that the site poses no risk of contamination and therefore, no further consideration is required under Clause 7 (1) (b) and (c) of SEPP 55 and the land is considered to be suitable for the residential land use.

SEPP (Infrastructure) 2007

Ausgrid

Clause 45 of the SEPP requires the Consent Authority to consider any development application (or an application for modification of consent) for any development carried out:

- within or immediately adjacent to an easement for electricity purposes (whether or not the

- electricity infrastructure exists).
- immediately adjacent to an electricity substation.
- within 5.0m of an overhead power line.
- includes installation of a swimming pool any part of which is: within 30m of a structure supporting an overhead electricity transmission line and/or within 5.0m of an overhead electricity power line.

Comment:

The proposal was referred to Ausgrid. No response has been received within the 21 day statutory period and therefore, it is assumed that no objections are raised and no conditions are recommended.

Sydney Regional Environmental Plan (Sydney Harbour Catchment) 2005

The subject property is located within the Foreshores and Waterways Area therefore the provisions of this plan apply to this development.

An assessment of the proposal against Clause 2(2) (aims of the SREP), Clause 14 (nominated planning principles), Clause 22 (relating to public access to and use of foreshores and waterways), Clause 23 (relating to maintenance of a working harbour), Clause 24 (relating to interrelationship of waterway and foreshore uses), Clause 25 (relating to foreshore and waterways scenic quality), Clause 26 (relating to maintenance, protection and enhancement of views) and Clause 27 (relating to boat storage facilities) has been undertaken. The proposal is considered to be consistent with the above provisions of the SREP. Given the scale of the proposed modification and the works proposed referral to the Foreshores and Waterways Planning and Development Advisory Committee was not considered necessary.

SEPP (Coastal Management) 2018

The site is subject to SEPP Coastal Management (2018). Accordingly, an assessment under the SEPP has been carried out as follows:

12 Development on land within the coastal vulnerability area

Development consent must not be granted to development on land that is within the area identified as “coastal vulnerability area” on the Coastal Vulnerability Area Map unless the consent authority is satisfied that:

- (a) *if the proposed development comprises the erection of a building or works—the building or works are engineered to withstand current and projected coastal hazards for the design life of the building or works, and*
- (b) *the proposed development:*
 - (i) *is not likely to alter coastal processes to the detriment of the natural environment or other land, and*
 - (ii) *is not likely to reduce the public amenity, access to and use of any beach, foreshore, rock platform or headland adjacent to the proposed development, and*
 - (iii) *incorporates appropriate measures to manage risk to life and public safety from coastal hazards, and*
- (c) *measures are in*

*place
to
ensure
that
there
are
appropriate
responses
to, and
management
of,
anticipated
coastal
processes
and
current
and
future
coastal
hazards.*

Comment:

The proposal includes minimal works within the areas specified on the Manly Coastal Risk Planning map.

As such, it is considered that the application does comply with the requirements of the State Environmental Planning Policy (Coastal Management) 2018.

15 Development in coastal zone generally—development not to increase risk of coastal hazards

Development consent must not be granted to development on land within the coastal zone unless the consent authority is satisfied that the proposed development is not likely to cause increased risk of coastal hazards on that land or other land.

Comment:

Council's Coastal Officer has assessed the application as satisfactory against the relevant provisions of SEPP (Coastal Management), the Sydney Harbour REP & DCP, and the Manly LEP and DCP.

Manly Local Environmental Plan 2013

Is the development permissible?	Yes
After consideration of the merits of the proposal, is the development consistent with:	
aims of the LEP?	Yes
zone objectives of the LEP?	Yes

Principal Development Standards

Standard	Requirement	Proposed	% Variation	Complies

Height of Buildings:	8.5m	3.9m	-	Yes
----------------------	------	------	---	-----

Compliance Assessment

Clause	Compliance with Requirements
4.3 Height of buildings	Yes
5.10 Heritage conservation	Yes
6.4 Stormwater management	Yes
6.5 Terrestrial biodiversity	Yes
6.8 Landslide risk	Yes
6.9 Foreshore scenic protection area	Yes

Mainly Development Control Plan

Built Form Controls

Built Form Controls - Site Area: 834.7m ²	Requirement	Proposed	% Variation*	Complies
4.1.2.1 Wall Height	North East: 6.5m	3.9m	-	Yes
	North West: 6.5m	3.7m	-	Yes
4.1.4.2 Side Setbacks and Secondary Street Frontages	1.3m (based on wall height)	1.9m - 2.6m	-	Yes
4.1.4.4 Rear Setbacks	8m	14.1m	-	Yes

***Note:** The percentage variation is calculated on the *overall* numerical variation (ie: for LOS - Divide the proposed area by the numerical requirement then multiply the proposed area by 100 to equal X, then 100 minus X will equal the percentage variation. Example: $38/40 \times 100 = 95$ then $100 - 95 = 5\%$ variation)

Compliance Assessment

Clause	Compliance with Requirements	Consistency Aims/Objectives
3.1.1 Streetscape (Residential areas)	Yes	Yes
3.2 Heritage Considerations	Yes	Yes
3.3.1 Landscaping Design	Yes	Yes
3.4.1 Sunlight Access and Overshadowing	Yes	Yes
3.4.2 Privacy and Security	Yes	Yes
3.4.3 Maintenance of Views	Yes	Yes
3.5 Sustainability - (Greenhouse Energy Efficiency, Thermal Performance, and Water Sensitive Urban Design)	Yes	Yes
3.6 Accessibility	Yes	Yes
4.1 Residential Development Controls	Yes	Yes
4.1.1.1 Residential Density and Dwelling Size	Yes	Yes
4.1.2 Height of Buildings (Incorporating Wall Height, Number of Storeys & Roof Height)	Yes	Yes
4.1.4 Setbacks (front, side and rear) and Building Separation	Yes	Yes

Clause	Compliance with Requirements	Consistency Aims/Objectives
5.4.1 Foreshore Scenic Protection Area	Yes	Yes
5.4.2 Threatened Species and Critical Habitat Lands	Yes	Yes

Detailed Assessment

3.4.2 Privacy and Security

Merit consideration:

The development is considered against the underlying Objectives of the Control as follows:

Objective 1) To minimise loss of privacy to adjacent and nearby development by:

- *appropriate design for privacy (both acoustical and visual) including screening between closely spaced buildings; and*
- *mitigating direct viewing between windows and/or outdoor living areas of adjacent buildings.*

Comment:

The proposed ground floor balcony extension does will not unreasonably impact upon visual privacy to and from the subject site and neighbouring dwellings. The proposed size and setback of the balcony is consistent with that of the outdoor living area of the adjoining property to the east, which formed part of the recent approval at this property (DA270/2017). The proposed setback (1.9-2.6m) is sufficient physical separation for both visual and acoustic privacy for a balcony of this size. The photo below shows the existing spatial relationship between the subject site and the adjoining eastern property. The proposed extension is not expected to unreasonably increase any visual impact.

Image 2- Existing ground floor balcony and adjoining property to the east (Currently under construction).

Objective 2) To increase privacy without compromising access to light and air. To balance outlook and views from habitable rooms and private open space.

Comment:

The proposed balcony will not result in any unreasonable loss of sunlight to the subject site or adjoining properties.

Objective 3) To encourage awareness of neighbourhood security.

Comment:

The proposal retains a open frontage to allow for passive surveillance of the street.

Having regard to the above assessment, it is concluded that the proposed development is consistent with the relevant objectives of MDCP and the objectives specified in section 1.3(a) of the Environmental Planning and Assessment Act, 1979. Accordingly, this assessment finds that the proposal is supported, in this particular circumstance.

THREATENED SPECIES, POPULATIONS OR ECOLOGICAL COMMUNITIES

The proposal will not significantly effect threatened species, populations or ecological communities, or their habitats.

CRIME PREVENTION THROUGH ENVIRONMENTAL DESIGN

The proposal is consistent with the principles of Crime Prevention Through Environmental Design.

POLICY CONTROLS

Northern Beaches Section 7.12 Contributions Plan 2019

As the estimated cost of works is less than \$100,001.00 the policy is not applicable to the assessment of this application.

CONCLUSION

The site has been inspected and the application assessed having regard to all documentation submitted by the applicant and the provisions of:

- Environmental Planning and Assessment Act 1979;
- Environmental Planning and Assessment Regulation 2000;
- All relevant and draft Environmental Planning Instruments;
- Manly Local Environment Plan;
- Manly Development Control Plan; and
- Codes and Policies of Council.

This assessment has taken into consideration the submitted plans, Statement of Environmental Effects, all other documentation supporting the application and public submissions, and does not result in any unreasonable impacts on surrounding, adjoining, adjacent and nearby properties subject to the conditions contained within the recommendation.

In consideration of the proposal and the merit consideration of the development, the proposal is considered to be:

- Consistent with the objectives of the DCP
- Consistent with the zone objectives of the LEP
- Consistent with the aims of the LEP
- Consistent with the objectives of the relevant EPIs
- Consistent with the objects of the Environmental Planning and Assessment Act 1979

It is considered that the proposed development satisfies the appropriate controls and that all processes and assessments have been satisfactorily addressed.

RECOMMENDATION

THAT Council as the consent authority grant Development Consent to DA2020/0215 for Alterations and additions to an existing dwelling on land at Lot 1 SP 4666, 1 / 7 Addison Road, MANLY, subject to the conditions printed below:

DEVELOPMENT CONSENT OPERATIONAL CONDITIONS

1. Approved Plans and Supporting Documentation

The development must be carried out in compliance (except as amended by any other condition of consent) with the following:

a) Approved Plans

Architectural Plans - Endorsed with Council's stamp		
Drawing No.	Dated	Prepared By
WD01	November 2019	A.C.W
WD03	November 2019	A.C.W
WD05	November 2019	A.C.W
WD06	November 2019	A.C.W
WD07	November 2019	A.C.W
D99SK01	7 February 2020	Turner Hughes Architects

In the event of any inconsistency between conditions of this consent and the drawings/documents referred to above, the conditions of this consent will prevail.

Reason: To ensure the work is carried out in accordance with the determination of Council and approved plans.

2. **Prescribed Conditions**

- (a) All building works must be carried out in accordance with the requirements of the Building Code of Australia (BCA).
- (b) BASIX affected development must comply with the schedule of BASIX commitments specified within the submitted BASIX Certificate (demonstrated compliance upon plans/specifications is required prior to the issue of the Construction Certificate);
- (c) A sign must be erected in a prominent position on any site on which building work, subdivision work or demolition work is being carried out:
 - (i) showing the name, address and telephone number of the Principal Certifying Authority for the work, and
 - (ii) showing the name of the principal contractor (if any) for any building work and a telephone number on which that person may be contacted outside working hours, and
 - (iii) stating that unauthorised entry to the work site is prohibited.

Any such sign is to be maintained while the building work, subdivision work or demolition work is being carried out, but must be removed when the work has been completed.
- (d) Residential building work within the meaning of the Home Building Act 1989 must not be carried out unless the Principal Certifying Authority for the development to which the work relates (not being the Council) has given the Council written notice of the following information:
 - (i) in the case of work for which a principal contractor is required to be appointed:
 - A. the name and licence number of the principal contractor, and
 - B. the name of the insurer by which the work is insured under Part 6 of that Act,
 - (ii) in the case of work to be done by an owner-builder:
 - A. the name of the owner-builder, and
 - B. if the owner-builder is required to hold an owner-builder permit under that Act, the number of the owner-builder permit.

If arrangements for doing the residential building work are changed while the work is in

progress so that the information notified under becomes out of date, further work must not be carried out unless the Principal Certifying Authority for the development to which the work relates (not being the Council) has given the Council written notice of the updated information.

- (e) Development that involves an excavation that extends below the level of the base of the footings of a building on adjoining land, the person having the benefit of the development consent must, at the person's own expense:
- (i) protect and support the adjoining premises from possible damage from the excavation, and
 - (ii) where necessary, underpin the adjoining premises to prevent any such damage.
 - (iii) must, at least 7 days before excavating below the level of the base of the footings of a building on an adjoining allotment of land, give notice of intention to do so to the owner of the adjoining allotment of land and furnish particulars of the excavation to the owner of the building being erected or demolished.
 - (iv) the owner of the adjoining allotment of land is not liable for any part of the cost of work carried out for the purposes of this clause, whether carried out on the allotment of land being excavated or on the adjoining allotment of land.

In this clause, allotment of land includes a public road and any other public place.

Reason: Legislative requirement.

3. General Requirements

- (a) Unless authorised by Council:
Building construction and delivery of material hours are restricted to:
- 7.00 am to 5.00 pm inclusive Monday to Friday,
 - 8.00 am to 1.00 pm inclusive on Saturday,
 - No work on Sundays and Public Holidays.

Demolition and excavation works are restricted to:

- 8.00 am to 5.00 pm Monday to Friday only.

(Excavation work includes the use of any excavation machinery and the use of jackhammers, rock breakers, excavators, loaders and the like, regardless of whether the activities disturb or alter the natural state of the existing ground stratum or are breaking up/removing materials from the site).

- (b) Should any asbestos be uncovered on site, its demolition and removal must be carried out in accordance with WorkCover requirements and the relevant Australian Standards.
- (c) At all times after the submission the Notice of Commencement to Council, a copy of the Development Consent and Construction Certificate is to remain onsite at all times until the issue of a final Occupation Certificate. The consent shall be available for perusal of any Authorised Officer.
- (d) Where demolition works have been completed and new construction works have not commenced within 4 weeks of the completion of the demolition works that area affected by the demolition works shall be fully stabilised and the site must be maintained in a safe and clean state until such time as new construction works

commence.

- (e) Onsite toilet facilities (being either connected to the sewer or an accredited sewer management facility) for workers are to be provided for construction sites at a rate of 1 per 20 persons.
- (f) Prior to the release of the Construction Certificate, payment of the Long Service Levy is required. This payment can be made at Council or to the Long Services Payments Corporation. Payment is not required where the value of the works is less than \$25,000. The Long Service Levy is calculated on 0.35% of the building and construction work. The levy rate and level in which it applies is subject to legislative change. The applicable fee at the time of payment of the Long Service Levy will apply.
- (g) The applicant shall bear the cost of all works associated with the development that occurs on Council's property.
- (h) No skip bins, building materials, demolition or excavation waste of any nature, and no hoist, plant or machinery (crane, concrete pump or lift) shall be placed on Council's footpaths, roadways, parks or grass verges without Council Approval.
- (i) Demolition materials and builders' wastes are to be removed to approved waste/recycling centres.
- (j) No trees or native shrubs or understorey vegetation on public property (footpaths, roads, reserves, etc.) or on the land to be developed shall be removed or damaged during construction unless specifically approved in this consent including for the erection of any fences, hoardings or other temporary works.
- (k) Prior to the commencement of any development onsite for:
 - i) Building/s that are to be erected
 - ii) Building/s that are situated in the immediate vicinity of a public place and is dangerous to persons or property on or in the public place
 - iii) Building/s that are to be demolished
 - iv) For any work/s that is to be carried out
 - v) For any work/s that is to be demolished

The person responsible for the development site is to erect or install on or around the development area such temporary structures or appliances (wholly within the development site) as are necessary to protect persons or property and to prevent unauthorised access to the site in order for the land or premises to be maintained in a safe or healthy condition. Upon completion of the development, such temporary structures or appliances are to be removed within 7 days.

- (l) A "Road Opening Permit" must be obtained from Council, and all appropriate charges paid, prior to commencement of any work on Council property. The owner/applicant shall be responsible for all public utilities and services in the area of the work, shall notify all relevant Authorities, and bear all costs associated with any repairs and/or adjustments as those Authorities may deem necessary.
- (m) Requirements for new swimming pools/spas or existing swimming pools/spas affected by building works.
 - (1) Child resistant fencing is to be provided to any swimming pool or lockable cover to any spa containing water and is to be consistent with the following;

Relevant legislative requirements and relevant Australian Standards (including but not limited) to:

- (i) Swimming Pools Act 1992
- (ii) Swimming Pools Amendment Act 2009
- (iii) Swimming Pools Regulation 2008

- (iv) Australian Standard AS1926 Swimming Pool Safety
 - (v) Australian Standard AS1926.1 Part 1: Safety barriers for swimming pools
 - (vi) Australian Standard AS1926.2 Part 2: Location of safety barriers for swimming pools.
- (2) A 'KEEP WATCH' pool safety and aquatic based emergency sign, issued by Royal Life Saving is to be displayed in a prominent position within the pool/spa area.
- (3) Filter backwash waters shall be conveyed to the Sydney Water sewerage system in sewered areas or managed on-site in unsewered areas in a manner that does not cause pollution, erosion or run off, is separate from the irrigation area for any wastewater system and is separate from any onsite stormwater management system.
- (4) Swimming pools and spas must be registered with the Division of Local Government.

Reason: To ensure that works do not interfere with reasonable amenity expectations of residents and the community.

FEES / CHARGES / CONTRIBUTIONS

4. Security Bond

A bond (determined from cost of works) of \$1,000 and an inspection fee in accordance with Council's Fees and Charges paid as security to ensure the rectification of any damage that may occur to the Council infrastructure contained within the road reserve adjoining the site as a result of construction or the transportation of materials and equipment to and from the development site.

An inspection fee in accordance with Council adopted fees and charges (at the time of payment) is payable for each kerb inspection as determined by Council (minimum (1) one inspection).

All bonds and fees shall be deposited with Council prior to Construction Certificate or demolition work commencing, details demonstrating payment are to be submitted to the Certifying Authority prior to the issue of the Construction Certificate.

To process the inspection fee and bond payment a Bond Lodgement Form must be completed with the payments (a copy of the form is attached to this consent and alternatively a copy is located on Council's website at www.northernbeaches.nsw.gov.au).

Reason: To ensure adequate protection of Council's infrastructure.

CONDITIONS TO BE SATISFIED PRIOR TO THE ISSUE OF THE CONSTRUCTION CERTIFICATE

5. Compliance with Standards

The development is required to be carried out in accordance with all relevant Australian Standards.

Details demonstrating compliance with the relevant Australian Standard are to be submitted to the Certifying Authority prior to the issue of the Construction Certificate.

Reason: To ensure the development is constructed in accordance with appropriate standards.

CONDITIONS THAT MUST BE ADDRESSED PRIOR TO ANY COMMENCEMENT

6. **Site Induction Required – Penguin and Bandicoot Habitat**

All workers, including site inspectors and sub-contractors, are to be made aware of the potential presence of Little Penguins and Long-nosed Bandicoots through a site induction prior to commencement of works. The site induction is to include information about their conservation significance, potential activities on-site, means of identification and the measures to be implemented for their protection. A confirmation of induction is to be signed by every worker and the site manager.

Evidence of the site induction is to be documented and provided to the Principal Certifying Authority.

Reason: To prevent impacts to threatened species, endangered ecological communities and their habitats in accordance with the Biodiversity Conservation Act 2016.

CONDITIONS TO BE COMPLIED WITH DURING DEMOLITION AND BUILDING WORK

7. **Construction Hours – Manly LEP Clause 6.5**

Construction hours are to be adhered to, with no construction vehicles or heavy machinery used outside the hours of 7:00am and 5:00pm.

Reason: Noise and vibration can disturb local native fauna (including threatened species) and prevent access to their natural habitats.

8. **Pre-clearance Survey Required – Penguin and Bandicoot Habitat**

A pre-clearance survey for Little Penguin and Long-nosed Bandicoot activity and presence is required prior to the removal of any vegetation, material or debris stockpiles. Clearing may only proceed if the survey concludes that no Little Penguins or Long-nosed Bandicoots are present within the area to be cleared or the immediate vicinity. All clearing must initially be carried out with hand tools to identify whether any penguins or bandicoots are sheltering within the area to be cleared (e.g. at the base of vegetation or under deep litter). Machinery may only be used once it has been confirmed that no penguins or bandicoots are sheltering within the area to be cleared. Clearing must be carried out at dusk and completed within one day so that penguins or bandicoots do not reoccupy partially cleared areas overnight. A record of each inspection is to be made in the daily inspection register log-book. The log-book is to be made available to Principal Certifying Authority.

Reason: To avoid injury or death of Little Penguins or Long-nosed Bandicoots which may be utilising stockpiles of vegetation, materials or debris.

9. **Daily Inspections Required – Penguin and Bandicoot Habitat**

An inspection register log-book must be kept on site recording daily inspections of all holes, machinery and construction material stockpiles, checking for Long-nosed Bandicoots and Little Penguins. Inspections are to be undertaken each work day before the commencement of works and works may only proceed once any bandicoot or penguin has safely vacated any holes, machinery or stockpiles. The log-book is to be made available to Principal Certifying Authority.

Reason: To avoid injury or death of Long-nosed Bandicoots or Little Penguins which may be

utilising stockpiles of vegetation, materials or debris.

10. **Report Dead or Injured Penguins or Bandicoots – Penguin and Bandicoot Habitat**

Any injured or dead Long-nosed Bandicoots or Little Penguins found within the worksite must be reported to the National Parks & Wildlife Service (9457 9577) or Northern Beaches Council (1300 434 434).

Reason: To prevent impacts to Long-nosed Bandicoots and Little Penguins in accordance with the Biodiversity Conservation Act 2016.

11. **Protect AOBV – Penguin Habitat**

The Area of Outstanding Biodiversity Value (formerly Little Penguin Critical Habitat), including rocky cliff and intertidal areas below the formed backyard, are to be fully protected for the duration of the works. There shall be no machinery use, storage of construction materials/waste, dumping, or clearing of vegetation, soil, rock or rubble within these areas.

Reason: To prevent impacts to Little Penguins and the adjoining Area of Outstanding Biodiversity Value.

12. **Slurry and Concrete to be Removed – Penguin Habitat**

All slurry or spilt concrete associated with works (including drilling) is to be contained at the source and within the construction area. Spilt concrete is to be removed before it dries. Slurry and spilt concrete are to be removed offsite.

Reason: To prevent construction-related impacts to the Area of Outstanding Biodiversity Value (formerly Little Penguin Critical Habitat).

**CONDITIONS WHICH MUST BE COMPLIED WITH PRIOR TO THE ISSUE OF THE
OCCUPATION CERTIFICATE**

13. **No artificial lighting in penguin habitat**

No artificial light is to be directed toward or illuminate the Area of Outstanding Biodiversity Value (formerly Little Penguin Critical Habitat) at any time during or post-construction. No bright lighting or motion detectors which illuminate the formed back yard or foreshore areas are to be installed. Low intensity lighting may be used in the formed back yard for safety purposes only.

Details demonstrating compliance are to be submitted to the Certifying Authority prior to issue of the Occupation Certificate.

Reason: To avoid impact to the declared Little Penguin Area of Outstanding Biodiversity Value.

In signing this report, I declare that I do not have a Conflict of Interest.

Signed

Maxwell Duncan, Planner
