20-24 Melwood Avenue, Forestville NSW 2087**

Ref IDAS1158140 - A-91619

Dear Tracy,

We are engaged as the Project Manager on behalf of the Forestville RSL for the project.

Further to our conversation we wish to confirm the following

1. The Intention is to design a drained basement for the project subject to council approval.
2. We have installed monitoring wells to ascertain the quantity of ground water, the required three months of monitoring will be complete in by the end of December 2024.
3. The RSL club will be engaging a hydrogeological consultant to review the data and provide an assessment so we can provide the required information to support the intention of having a drained basement.

Due to the timing and the requirement of the monitoring data we seek an extension of time to provide the required response to your RFI .

We are aiming to have the required information to response by end of March 2025.

Trusting the above is acceptable and in keeping with our discussion, kindly advise this extension can be granted.

Should you have further queries please contact the undersigned

Yours Truly

Construction and Management Service Pty Ltd

Michael Briscas

Director.
