Subject: DA2021/0359 15 Waratah Stret Mona Vale ATTN Dean Pattalis

Dear Sir,

The documents supplied with the abovementioned DA certainly show a lot of information but they lack a Survey Plan showing the existing trees and the impact of the proposed development.

I realise that the trees are shown in some of the plans and other data but the data is not accurately locate the trees.

It seems to be that the survey plan shown does not specifically address the DA but focusses on the boundaries of part of the site.

Regards

Michael Green
