**RE: DA2018/1708 - 195 Sydney Road FAIRLIGHT NSW 2094**

1. unsuitable development for residential area, too many units, not enough parking, pollution, unsustainable development, and environmental damage.
2. A development for developers, and not residents of FAIRLIGHT.
3. Residents in area are now finding parking and noise from the main road undesirable, so the council find it desirable to add noise, more pollution, and why a boarding house with too many units desirable, and for whom?
4. The whole concept of this plan is to make the people, who are in this process of planning and developing, maximum financial gain, at the expense of the residents in the surrounding area.
5. How is a boarding house, a residential living home.

I propose further time for residents in the area to consider the size and impact for this development.

yours sincerely
