RE: DA2020/0543 - 50 Lawrence Street FRESHWATER NSW 2096

The development proposed presumably requires the removal of the existing Dowling St bus stop in order to accommodate the car park access driveway. There is no suitable alternative to safely relocate a bus stop in Lawrence Street and relocating the bus stop further up Dowling Street would not provide acceptable public transport access to Freshwater shops. The development also exceeds the 3m. maximum height limit.
