Dear Ray

Our family has resided at 8 Manuela Place Curl Curl for over 22 years.

When we moved here in 1998 there was sport on every weekend which we were happy to accommodate.

Then several years ago Freshwater High School became a Senior Campus.

Concerns were expressed about senior students driving to school and taking over our residential parking.

At a meeting at the school we were promised by the then Warringah Council that the access to the school from Bennett Street would be locked to students.

This never happened. From day one we were overtaken by student parking from 8am to 4pm Monday to Friday.

Council waste collections had to be done prior to 7.30am or the trucks could not gain access to the street.

Now you are proposing to inflict us with more parking issues 7 nights a week with the introduction of night time sport.

The sporting fields are approximately 15 metres from our rear boundary and 20 metres from our bedroom windows.

Attached are two pictures of the lights from Reub Hudson Oval some 500 metres from our home.

There is no buffer here, unlike other floodlit fields, between the playing fields and residential properties.

Our lifestyle here has deteriorated enough over the years and this DA must be withdrawn for our safety and sanity.

Already Bennett Street, Holloway Place and Manuela Place is one way traffic 7 days a week.

To inflict us with 7 days and 7 nights a week is just too much.

PLEASE HAVE THIS DA WITHDRAWN

Regards

Peter Turner
