RE: DA2021/0744 - 50 Lawrence Street FRESHWATER NSW 2096

Please do not allow this development to proceed. There has been so much development in the Freshwater shops area and it has resulted in a loss of two supermarkets, a newsagency and many other businesses (all prior to covid).

Our small streets are already strained with the increase in apartments recently and we have personally suffered many incidents of accidental car damage due to the narrow streets.

In addition this will change the look of the main entrance to freshwater, which has managed to hang onto a few historic buildings.

The size of this building seems out of proportion to the village atmosphere that we have.

Regards
