RE: DA2021/1912 - 2 - 4 Lakeside Crescent NORTH MANLY NSW 2100

This development will greatly increase the dangers to pedestrians and cyclist at the lakeside crescent/ Oliver street/ Pittwater road intersection. The sidewalks at the corner near powerhouse auto in particular and along Pittwater road are insufficient and dangerous for current levels of bicycle and walking traffic to the community facilities of keirle park, meals on wheels and eventually to the pool. If this new facility is not providing enough parking how can we expect those seniors and other residents won't just drive?
