**TO ENFORCE THE REQUIREMENTS WITHOUT PRIOR WARNING.**

**GENERAL CONDITIONS**

**APPROVED WORKS**

**1. Works**

The following applies to the site:

**(b) Trees which may be pruned**

This consent includes approval under Council's Tree Preservation to prune the following trees:

Council Reference No:	Species	Location	Percentage (%) of Tree Canopy Permitted for Pruning
1	Cedrus deodara (Deodar Cedar)	Front setback	15% prune low branches. Remove the deadwood and vine plant from trunk.

Notes; Tree 1 was refused removal for the following reasons;

1. Tree 1 was in good health and condition at the time of inspection
2. Tree 1 provides amenity to the area
3. Tree removal is not generally justified for reasons such as a tree is causing damage to minor ancillary structures such as a driveway and path.
4. Engineering alternatives are required to be considered prior to the removal of trees.

Approval is granted for selectively pruning Tree 1. Recommendations are made to remove the vine plant from the tree trunk.

**2. Approved Development and Supporting Documentation**

Approval is NOT granted for any demolition or construction works.

**Reason:** *To ensure the work is carried out in accordance with the determination of Council.*

**SITE REQUIREMENTS**

**3. Development Consent on Site**

A copy of this consent shall be kept on site at all times during and up to six (6) months after the completion of works, so as to be readily available for perusal by any Authorised Officer of Council.

*Reason: Protection of footpath and roadways.*

Provision shall be made throughout the period of tree removal to prevent transmission of soil to the public road and drainage system by vehicles leaving the site.

*Reason: To avoid siltation to adjoining properties and waterways.*

#### **6. No Work on Public Open Space**

The applicant shall not enter or undertake any work within adjoining public lands (i.e. Parks, Reserves, Roads etc) without the prior written consent of Council.

*Reason: Protection of existing public infrastructure and land and to ensure public safety and proper management of public land.*

#### **7. Kerbside restrictions, construction zones**

The applicant's attention is drawn to the existing kerbside restrictions adjacent to the development. Should the applicant require alteration of existing kerbside restrictions, or the provision of a construction zone, the appropriate application must be made and the fee paid. Applicants should note that the alternatives of such restrictions may require referral to Council's Traffic Committee and may take considerable time to be resolved. An earlier application is suggested to avoid delays in construction programs.

*Reason: Proper management of public land.*

#### **8. Noxious Plants**

All lantana, privet, rubber trees, parateria, and other declared noxious plants on the site, shall be eradicated.

Eradication of noxious weeds shall be conducted within three (3) months of the approved works being conducted.

*Reason: To ensure that plants identified as weed species are not allowed to proliferate or interfere with a quality-landscaping outcome.*

#### **9. Hours of Work**

Works shall be restricted to within the hours of 7.00 am to 5.00 pm Monday to Friday and on Saturday to within the hours of 8.00 am to 1.00 pm inclusive, with no work on Sundays and Public Holidays.

The person acting upon this consent shall display, on-site, their twenty-four (24) hour contact telephone number, which is to be clearly visible and legible from any public place adjoining the site.

Such permit must be obtained and the appropriate fee paid at least two (2) clear working days in advance of each relevant date. Such occurrence shall be limited to two occasions per calendar month and shall only be approved if public safety or convenience is at risk.

**Reason:** *To ensure that works do not interfere with reasonable amenity expectations of residents and the community. (DACGEch)*
