I would have sent my submission via the "Application Search" method as recommended in your letter dated 7th Nov 2022 but I could not see a way to attach a document to the online form and nor could I see anyway of sending a copy of the completed submission form to my own email address and thus create a record of the submission, should I have cut and pasted from the word document.

Consequently, I have attached to this email is msword document (61B\_Wandeen\_Road--objection\_to\_carport\_walls.docx), being my submission in regard to the modified plans for the re-development at 61B Wandeen Road, Clareville, NSW.

It is not indicated in your letter, or on the council's website, how the council acknowledges receipt of submissions. As such, would you please provide by return email, the receipt of this email and the attached submission contained therein.

Regards,

Andrew
