RE: DA2020/0661 - 7356 / 1167221 Huston Parade NORTH CURL CURL NSW 2099

Regarding the proposed 5G Installation near community
Centre at North Curl Curl.

The independent studies show this tech is not safe, or at best unclear.

This is not a high enough standard of proof for public safety including that of children playing
nearby or the primary school not far away.

Class actions will abound in future.

Check your councils public liability policy, to see if it covers lawsuit from electromagnetic
frequency damages claims...
