RE: REV2019/0056 - 888 Pittwater Road DEE WHY NSW 2099

The area where the kiosks are under review was presented in the original scope of works as a decked Childs water play area.

Instead a tarmac surface has been installed with no shelter and no play area.

This space should be converted into a shaded usable area for the public to congregate, thus attracting more people to the area.

To create more completion is ludicrous. Salt meats cheese no longer opens for lunch as there are no customers during the day.

Meriton misrepresented what this space was going to be and should be held accountable to create the original concept.

More businesses will not improve the area, however more events, markets, decking and shade will,

Sincerely,
James
