RE: DA2020/1167 - 9 Francis Street DEE WHY NSW 2099

As a long term resident of the Northern Beaches and having both known and worked with the guys and girls from New Life Baptist Church for over four years, I commend their strong not only to upgrade their aged facility to a much more modern one but also to provide socially responsible accommodation in accordance with their Church social justice objectives. I think this is a fantastic project as it both equips the Church financially to expand its ministry into the needs of the community and will also provide much needed relief for the current shortfall in this type of accommodation on the Northern Beaches. The Church has been running for well over a hundred years and has been a significant community hub and hopefully this project will expand that position.

Sincerely,

Shaun M.
