RE: PEX2014/0004 - 9 Howard Avenue DEE WHY NSW 2099

The continual approval of high-density highrise apartment buildings in Dee Why is simply going to add to the overbuilt nature that is Dee Why, not improve it. Furthermore, the roads, public transport and parking facilities in this, and other nearby areas, are not nearly at a level where they can adequately cope with the influx of residents and cars expected by these big developments. Dee Why is already constantly in gridlock at all time of the day, seven days a week. It is already impossible to park anywhere to support any local businesses. Crime is already increasing. The constant unwillingness by Council to address these issues prior to approving these big developments is utterly astounding, not to mention criminal. I will be delighted to vote this council out of existence because of this greedy conduct, and I am not the only one.
