Application Number:	Mod2017/0202
Address:	Lot 1 DP 1220196 , 4 - 10 Inman Road CROMER NSW 2099
Proposed Modification:	Modification of Development Consent DA2017/0438 granted for Demolition Works and Tree Removal

Background

The abovementioned development consent was granted by Council on 4 July 2017 for Demolition works and tree removal.

Details of Modification Application

Under Section 96(1) of the EPA Act 1979, a consent containing an error or mis-description may be amended. Warringah DCP (A7 Notification) does not require the notification of Section 96(1) modification applications as they are considered to be for minor changes that do not affect the development or the amenity of adjoining properties.

The application seeks to modify condition(s) No. 5 and No. 6, which reads as follows:

5. Tree protection

(a) Existing trees which must be retained

- i) All trees not indicated for removal on the approved plans, unless exempt under relevant planning instruments or legislation
- ii) Trees located on adjoining land

(b) Tree protection

- i) No tree roots greater than 50mm diameter are to be cut from protected trees unless authorised by a qualified Arborist on site.
- ii) All structures are to bridge tree roots greater than 50mm diameter unless directed otherwise by a qualified Arborist on site.
- iii) All tree protection to be in accordance with AS4970-2009 Protection of trees on development sites, with particular reference to Section 4 Tree Protection Measures.
- iv) All tree pruning within the subject site is to be in accordance with WDCP2011 Clause E1 Private Property Tree Management and AS 4373 Pruning of amenity trees
- v) All tree protection measures, including fencing, are to be in place prior to commencement of works.

Reason: To ensure compliance with the requirement to retain and protect significant planting

6. Compliance with Standards

The development is required to be carried out in accordance with all relevant Australian Standards.

Details demonstrating compliance with the relevant Australian Standard are to be submitted to the Certifying Authority prior to the issue of the Construction Certificate.

Reason: To ensure the development is constructed in accordance with appropriate standards.

Consideration of error or mis-description

The original development application related to demolition works and tree removal which do not require a Construction Certificate (CC) to be issued prior to works commencing. Condition No. 5 and No. 6 were placed on the Notice of Determination requiring compliance prior to the issue of a CC. The imposition of these conditions in their current form is considered to be an error.

As no CC is required for the development the conditions are to be moved under the heading; '*CONDITIONS TO BE COMPLIED WITH DURING DEMOLITION AND BUILDING WORK*' with new Conditions numbers to be given to them as Condition No. 8a and No 8b respectively.

Conclusion

It is considered that the modification is minor in nature and consistent with the provisions of section 96 (1) of the EPA Act 1979 and is therefore recommended for approval.
