Hi Carly

I wish to continue to give my objection to this application. My objections have been outlined in various submissions with the developers failing to address any of them, (including the complete misrepresentation of shadowing impact on 10 boyle st... no where to be found in councils latest ruling on the DA) so I am very disappointed that council has said they do not object to this application.

I will not be able to attend the hearing on Monday, given the short notice and the fact that it is within business hours - I am still at a loss to understand why such short notice is provided and why there is even a hearing - from the hundreds of submissions it's clear this application does not satisfy building controls and should have been rejected long ago.

I wish to give my proxy to Jane Mckie of 8 boyle st to speak on my behalf.

Regards  
Andy
